PHASING PLANS

Pricing Diagrams

The following diagrams for HSSE Library indicate an intensity of work, rated on existing conditions and proposed new program, intended to clarify the cost estimating process.

STEW - FIRST FLOOR

STEW - FIRST FLOOR

STEW - THIRD FLOOR

STEW - FOURTH FLOOR

STEW - ROOF

- 1 LEVEL 1** Finishes (wall/ceiling paint, lighting)
- 2 LEVEL 2** Finishes+ (wall paint, new ceilings, lighting, new floor finish, add power)
- 3 LEVEL 3** New enclosed rooms (new walls, glass-facing public areas, ceilings, lighting, finishes, power, HVAC rework)

- 4 LEVEL 4** Toilet room upfit (new fixtures, tile walls, tile floors, ceilings, lighting, partitions, ADA upgrades)
- 5 LEVEL 5** New specialty architectural feature (stair, cafe, ramp, roof deck, specialty ceiling) or structural modification / slab removal

MEETING MINUTES

Workshop 1: November 11, 2021

Meeting Details

Meeting Date:	11.10.2021	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	All Day	Project Number:	021661.000
Meeting Location:	HSSE, Third Floor Conference Room 353	Attendees:	10 Students, Jessica Figenholtz, Drew Furry, Beth McNeil, Derek Jones, Allison Leavitt, Phil Kolb, Dean Lingley, Rebecca Richardson, Mark Puente, Candace Scott, Katey Watson, Robin Meher

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Student Visioning Session</p> <ol style="list-style-type: none"> More space to gather and work in groups, open space that requires no reservations. Its to closed and quiet for discussions at the moment. Like multiple zones for different types of work. Want spaces to share ideas. Do not like the current lighting. Too much info flooding the campus, need a better more interactive way to search for different services. Like high ceilings and sense of volume. Don't like interior finishes and uncomfortable hard chairs. Create: Curated books, make spines visual; Conference style rooms with technology; Sharing spaces; more natural light; Conversation pits; Better ergonomics; More outlets and power sources. 	Perkins + Will
002	<p>Workshop Prep</p> <ol style="list-style-type: none"> Confirm enrollment target numbers in alignment with classroom MP; Review floorplans of what is library space (WALC); Follow up with Drew for space needed for all buildings; update spreadsheet; Beth to provide list of stakeholders that did not fit in workshop #1. 	Perkins + Will
003	<p>Archives & Special Collections</p> <ol style="list-style-type: none"> Strategic Plan: Increase use of collections and visibility of archives; Division going through rapid growth area collections, staff, collaborations with departments; Need capacity to bring in more public exhibits; Have mixed audiences; Need to balance food/beverage needs with archive materials. Growth: Can't accept collections because of the lack of space; Need climatized transitional spaces; Need personal to do exhibits and allow for growth; Process, collections and reading rooms should be in proximity. Staff Growth: Working on adding staff member; Need processing space; Still want staff offices for private meetings and instruction; Flex space is good. Meeting Space: Weekly staff meetings are remote; SWAIN is not good for small meetings, needs to be more intimate. Make people place materials in lockers if they have any Special Equipment: Have loans to museums but should increase use and gain exposure; Bring materials in skid palette, need access to freight elevators and loading docks; Donors of collections want more visibility and expect distinct identity; Should be 'gravatas' around high-profile collections. 	Perkins + Will

Action Items: Purdue to send quantities (i.e. couple of freezers, tec.)

004	Digital Scholarship User Group <ol style="list-style-type: none"> 1. Purdue is invested in STEM; Most resources are not physically available. 2. Need a good network; No clear website pointing people in right direction; Researchers don't like going into different offices, they should be more integrated/ 3. No digital scholarship program on campus; initiatives come from faculty. 4. Digital scholarship and digital humanities should be together and belong to HSSE library space. 	Perkins + Will
005	External Faculty Partners <ol style="list-style-type: none"> 1. David, history professor, expressed how Purdue has no access to books; Students prefer e-books. 2. In STEM, books are outdated quickly; Care more about digital copies; Don't know everything the library offers. 3. Faculty doesn't go to the library because all spaces are always taken up by students; Faculty wants private space, for writing, away from students and noise. 	Perkins + Will
006	CIE and Innovative Learning & Envision Center <ol style="list-style-type: none"> 1. Think about hybrid situations with classes and adapt spaced to that, studios; Think about VR spaces; Bleeding off library spaces idea. 	Perkins + Will
007	Core Visioning Session <ol style="list-style-type: none"> 1. Keep: Individual study spaces; Costumer service; Books; Digital reference help desk; Makerspace; Multi-purpose spaces like computer labs, study rooms, etc. 2. Toss: Big service desk; single use spaces; Idea of quietness; security systems; all print collections on campus; Uncomfortable seating; Not friendly 'staff only' signs; Physical books that are online. 3. Create: Consistent signs and branding; Data/GIS walk in services; Recording studios; Sanctuary spaces; Collaborative spaces; Wayfinding interfaces; better maker space; Dynamic welcome space; Interactive noisy space; Gallery space; Permanent exhibit space. 	Perkins + Will
008	Partners in Library Space <ol style="list-style-type: none"> 1. There are good resources on campus, people don't know where they are 2. Need spaces that encourage dialog 3. Create opportunities by taking away the stigma and barriers of library, give people tools to be successful 	Perkins + Will
009	Communications and Advance <ol style="list-style-type: none"> 1. Want to make libraries more visible, raise awareness; Get survey from Phil 2. 3D printing services are tucked into a windowless corridor; Technology needs to be placed somewhere more accessible; Library is being used as a transiting space from class to class. <p>Action Items: Get survey from Phil</p>	Perkins + Will
010	Library Faculty User Group <ol style="list-style-type: none"> 1. Need space to meet for private conversations; need small group meeting rooms. 2. Need to get scholars more connected; Spaces need to be more conducive to multicultural students; Leverage spaces for more collaboration for under-served students; More physical and virtual spaces for partnership and collaboration. 3. Need to send questions ahead of time. 	Perkins + Will
011	Administration User Group <ol style="list-style-type: none"> 1. Look at JLL space study from Michael as we plan space; Meetings space for 4-6 conf rooms; Soo how often we have large meetings in Outlook calendar for covid times; Need video possibility in the rooms. 2. Make admin space more accessible to staff; Also want it open and welcoming; Could benefit from having a hub; Some office space feels removed/isolated (maybe due to pandemic). <p>Action Items: Beth to send spring report and projected numbers</p>	Perkins + Will

012	<p>Library Services, Access Services & Print Repositories</p> <ol style="list-style-type: none"> 1. Front Desk: HSSE doesn't have enough room (1-2 people); WALC 1 person; HSSE desk too wide. 2. Would like to have ITAP nearby; Have it at WALC now, signage doesn't work. 3. Theresa: Like ITAP ideal for Parrish Library desk; Currently have 4 different wats to approach. 4. Equipment in HSSE needs work, WALC is set up already; Security is not a big issue; Technology in WALC will be receiving maker tools back. 5. ILL loan area, need to look at processing from shipping/receiving. 6. Accessibility is a big issue in all spaces. 	Perkins + Will
013	<p>UCO, PUP and OUR User Group</p> <ol style="list-style-type: none"> 1. PUP: In the process of moving; There is only 1 enclosed office, need more for senior leadership team; Had some restructuring; Fear there might be disruptive without own closed space; Want mini conference room; New space might limit future growth; As publishers they do a lot of printing. 2. UCO: Copyright does all the legal work for PUP; Adjacency is not beneficial; Copyright attorney for all Purdue campuses; Work with archives; Work closely with Dean, senior advisor to Beth. Lots of legal issues in libraries; Workshops range from 5-20 students; Do not touch printer in desk; Need quiet space for office. 3. OUR: Want it to be in front and center; Main entry is off study space: 4 cubicles for grad students, and 3 workstations for undergrads; There is not enough storage in suite. 	Perkins + Will
014	<p>Acquisitions and Discovery</p> <ol style="list-style-type: none"> 1. Discovery: When you look at library catalog that is discovery; Unit makes sure searching things are working correctly; Metadata is data standing behind materials in library. 2. Acquisitions: Everything in library goes through acquisitions; Want lunchroom near them; Hoteling station + undesignated workstation; Elevator is only in stack area, not in work area; No ADA access on 3rd floor; Need for quiet spaces, acoustic separation. 3. Made cubicles the same size, moving virtually. 	Perkins + Will
-15	<p>Fabricators and Maker Spaces User Group</p> <ol style="list-style-type: none"> 1. Ann, Robin, Victoria Thomas, Sarah -run maker space; Don't host events because it's too small; WALC maker space is not accessible to students. 2. Annette and Sarah have podcast part of maker programming; 2 offices, want to dedicate one to podcast booth; possibility of making one at HSSE. 3. Maker Space: CNC machine; Cricket maker and Cricket press; 3D scanner. 4. Been asked to print with materials they don't have; Want a good 3D scanner; Want a display case to show student work to get people interested. 	Perkins + Will

... an undeniable impact
on ~~business~~ and culture ...
learning

Slide 5 of 49

Success will mean . . .

- **Compelling, future forward vision: “more than books”**
- A vision/project that is ready for funding
- **Collections are protected and safe**
- **The library is visible and welcoming: stronger identity**
- Friendly staff are foregrounded
- **Support innovative instruction/learning/pedagogy**
- Flexible/adaptable
- **Embrace the metaverse—merging physical and virtual space**
- Consolidated and accommodate growth for A/SC

collections
visibility
innovation
technology

Slide 6 of 49

Challenges will be . . .

- Ability to fundraise to a budget
- Will the aspirations be sustainable (physically and institutionally)
- How will staffing align with increased demand (student FTE's have already hit 2028 projections)
- **Don't overdo the "digital" – maintain balance**
- **Demonstrate (make visible) purpose and relevance**
- **Do not lose sight of student needs**

collections
visibility
technology
student focus

Slide 7 of 49

Core Group

Compelling Vision: "more than books"

Collections are protected

Library is visible & welcoming

Support innovation

Embrace the "metaverse"

Don't overdo the tech

Don't lose sight of student needs

Slide 8 of 49

Core Group	Exec. Committee
Compelling Vision: “more than books”	Doubling down on the “experiential”
Collections are protected	Maintain: 1-in / 1-out
Library is visible & welcoming	Accessible; extension of classroom
Support Innovative Learning	Co-educators of transformative ed
Embrace the “metaverse”	Center of mass: online experience
Don’t overdo the tech	Belonging; access; connected; inclusive
Don’t lose sight of student needs	Student success

Slide 9 of 49

In a word . . .

Core Group	Exec. Committee
Bold	Experiential
Flexible	Ownership
Visionary	Pride
Practical	Supportive
Enabling	Success

Slide 32 of 49

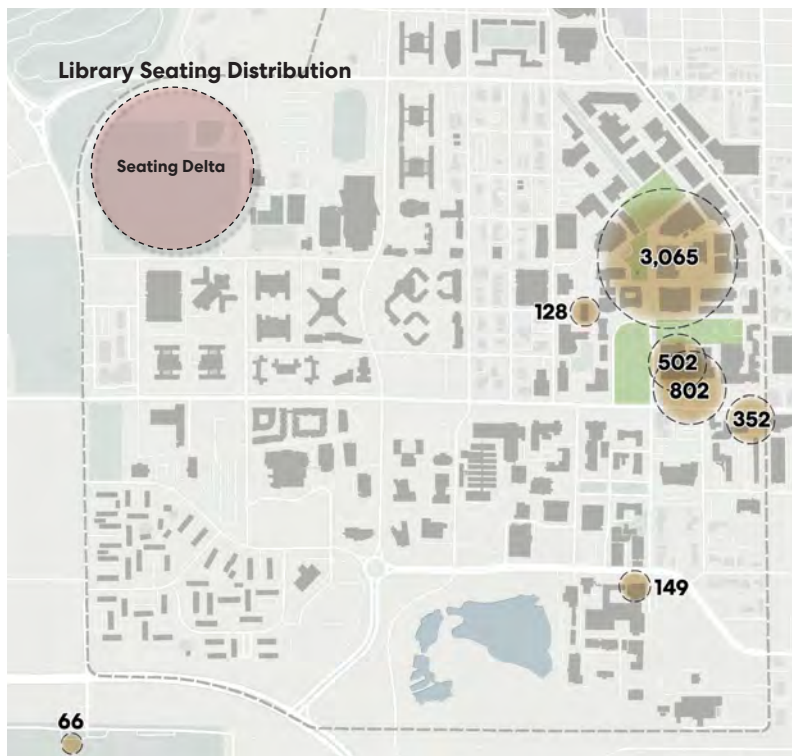

Overview

291 total classrooms = 329,330 NASF across 47 buildings

- NASF range: 340 to 6,944
 - Average = 1,000 - 1,200 sf
 - Most frequent = 400 - 600 sf
- 5,699 student stations
 - Room capacity range = 16 - 480 stations
 - Average = 65 stations
 - Most frequent = 40 stations
- NASF/station: 10 - 30
 - Average NASF/seat = 19
 - Most frequent NASF/seat = 15
 - 192 classrooms have less than 25 sf/seat
- 88 designated as “active learning”
 - 20 - 180 stations @ 15 - 30 NASF/station

Cost & Implementation

Initial Spaces to measure:

- HSSE Level 1
- HSSE Level 2
- HSSE Level 3
- HIKS Level G
- WALC Level 2

Cost Structure for 3 months:

- \$29/month per sensor
- \$300/year per sensor
- Assuming 5-10 sensors to cover a floor:
 - Low: \$ 2,175
 - High: \$ 4,400

Implementation Timeline:

- Clear with Univ. IT: 2-weeks
- Order lead time: 4-weeks
- Install by: winter break
- Calibration: 2-weeks
- Begin data collection: mid to late-Jan

WIFI Usage Data - Student Headcount for each Library by Semester

Slide 38 of 49

WiFi Usage Data – Average Weekly Student Headcount for each Library (SP2019*)

* No SP2019 data available

Perkins&Will

Slide 39 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Aviation Technology Library (AVTE)

Observations:

66 seats

- Small average number of users
- Specialized space
- Off Central Campus
- 12% avg. utilization during primary hours 8am-6pm

Perkins&Will

Slide 40 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Black Cultural Center Library (BCC)

Observations:

2 Classrooms / capacity?

- All days follow roughly the same trend: consistent utilization from 11am-6pm and highest numbers weekday Mon-Thurs evenings (8-9pm)
- Consider classroom occupancy affecting counts

Perkins&Will

Slide 41 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Hicks Undergraduate Library (HIKS)

Observations:

802 seats – 1 Classroom

- Highest use between noon and 9pm on M, T, W, TR, SUN
- 60% avg. utilization during peak use 2-4pm Mon-Thurs
- Consider classroom occupancy affecting counts

Perkins&Will

Slide 42 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Humanities, Social Science, and Education Library (HSSE)

Observations:

502 seats – 2 Classrooms

- Peak use between 10am and 6pm Mon-Thurs (~83% utilization)
- 95% avg. utilization between 2-4pm Mon-Thurs
- Consider classroom occupancy affecting counts

Perkins&Will

Slide 43 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Mathematical Sciences Library (MATH)

Observations:

128 seats

- Highest use between 10am and 5pm on Mon-Thurs with avg. seat demand of 175

Perkins&Will

Slide 44 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2019)

Roland G. Parrish Library

Observations:

352 seats – 11 Classrooms

- Highest use between noon and 10pm on Mon-Thurs with 44% avg. utilization between 1-5pm
- SUN has a large usage in the mid-afternoon
- Consider classroom occupancy affecting counts

Perkins&Will

Slide 45 of 49

WiFi Usage Data – Average Headcounts by Hour & Day (SP2017*)

Veterinary Medical Library (VETM)

Observations:

149 seats – 3 Classrooms

- Highest use in the weekday mornings with 32% avg. utilization between 9am-1pm
- Consider classroom occupancy affecting counts

* No SP2019 data available

Perkins&Will

Slide 46 of 49

WIFI Usage Data – Average Headcounts by Hour & Day (SP2019)

Wilmeth Active Learning Center (WALC)

Observations:

3,065 seats – 27 Classrooms

- Highest use between 8am-4pm weekdays
- Low use Fridays and weekends
- Consider classroom occupancy affecting counts

Perkins&Will

Slide 47 of 49

Understanding the WIFI Usage Data

Our understanding is that the data represents single headcounts even if student is logged in on multiple devices.

The challenge:

Understanding which **WIFI users are in classrooms vs. those who are in the library spaces.**

Finding out **when these classrooms are used** (classroom utilization study might have answers).

Separating out students in classrooms will help compare the **number of library users with the seating capacity** throughout the day.

Defining **seat types in the library** to understand capacity and confirm if they're the right type of seat to accommodate tasks.

Perkins&Will

Understanding the WIFI Usage Data

Other data questions:

Do you have circulation data (ie. gate counts / swipe ins)?

Does mean_users_dow_hr represent dwelling time of a certain student?

Workshop 2: December 06, 2021

Meeting Details

Meeting Date:	12.6.2021	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	All Day	Project Number:	021661.000
Meeting Location:	HSSE, Third Floor Conference Room 353	Attendees:	Renee Thomas, Bill Caise, Lowell Kane, Allison, Pam Sari, Dorothy, Rebecca Richards, Mark Fuentes, Katey Watson, Annette, Amanda Gill, Natasha Johnson, Ayn Reineke, JJ Sadler, Dorothy Smatt, Stephen Lenz, Laura Grauerholtz-fisher, Phil Kolbe, Mathew Reihle, Scott Hefner,

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Call With Karen Hum</p> <ol style="list-style-type: none"> 1. Data counts as per headcount, independent of number of devices. 2. Students study in classroom when library is closed. <p>Action Items: Karen to send study they did at WALC; Get head count for classrooms in WALC; end classroom data (2019)</p>	Perkins + Will
002	<p>Call With ASG</p> <ol style="list-style-type: none"> 1. Julie and Keith: Enrolment numbers should be synchronized; Nor firmed approved enrollment numbers; Articulate what we think we need to properly support these different enrollments; Pick a growth scenario and shrinking scenario. 2. Spaces: Podcast rooms, One button studio, VR space. <p>Action Items: Pick a growth scenario and shrinking scenario; Set up meeting with Shannon/ASG to set up touch point meeting every 3 - 4 weeks to swap lessons learned</p>	Perkins + Will
003	<p>LGBTQ & Cultural Centers</p> <ol style="list-style-type: none"> 1. Lowell: 1 in 5 students associate on LGBTA spectrum; Students that go to one center, go to multiple centers. On track to have more than 15,400 visits; Need more shared space and staff. 2. Pam/ARC: Be aware of own identity; support what is happening nationally; Talked about expanding library collection. 3. Bill: Empower students and educate community on African American tapestry; NPI used for dance studio, lecture hall, and movie theater; NP2 used for gallery space, lecture hall, and ad hoc classroom. 4. Renee: Centers have taken advantage of archives; Sanctuary space in the library? 5. Lowell: Expansion of LGBTQ center; Other cultural centers are house in houses; Rely heavily in external partnerships. 	Perkins + Will
004	<p>Council on Equity & Belonging</p> <ol style="list-style-type: none"> 1. Thinking of accessibility and related things; Headed to growing collections outwards; Develop collaborations and expending portfolio for DEI. 2. Nontraditional students need support; Parenting students, create family study room in HSSE, SPAM plan, students don't know how to navigate libraries. 3. Building community: Need more physical and digital space; Easy to ignore Native American population, their group is too small; Need more collections; Make people aware of services. <p>Action Item: Meet with learning council</p>	Perkins + Will

005	<p>Call with Keith Gehres</p> <ol style="list-style-type: none"> Both master plans should have similar numbers; Enrollment growth is unexpected and could become a problem, need to add facilities. Goal forward - want to be 8300 - 8700 new beginners - all dependent on what leadership decides. PW projections: 2030 enrollment of 45,500; Keep in alignment with Purdue SP and Classroom MP. <p>Action Item: ASG to take the lead on creating first stab at enrollment and bounce off Keith/PW for review</p>	Perkins + Will
006	<p>Working Group Meeting – Website Experience</p> <ol style="list-style-type: none"> Missing important stuff; Can't get everything done; Focus on front page; Real state in front page should be right size; Not user friendly; Not set up for students. Have physical and virtual exhibits for archives; Library doors to be adapted with information; students are afraid to talk inside. 	Perkins + Will
007	<p>Physical and Virtual Branding</p> <ol style="list-style-type: none"> Weaknesses: Lack of awareness of brand and services; Each library has own identity; Physically scattered; Names of libraries and their relation. There is no student success center: Can encompass research, diversity, inclusion; Have students to guide and faculty with general public. 	Perkins + Will
008	<p>New Emerging Programs and Services</p> <ol style="list-style-type: none"> Derek, lead the team through insights received from memorable library experience, culture discussion and visual listening summary. Consistent interface/brand (creates the framework) "online" class seats (space to do virtual class for in between in-person courses) Knowledge gallery; Center for digital scholarship More/Better/Enhance: Interactive noisy spaces; Expanded archives display need more engagement; More study rooms; Virtual reference with screen sharing; More embedded collaboration classrooms; Articulate the value of library, "best spaces for students to learn". 	Perkins + Will
009	<p>Purdue THINK</p> <ol style="list-style-type: none"> Implementation: Locker space; Redesign the pilot HSSE Family Room; General awareness of library resources; Microwaves in library spaces. Questions: From conversation with students, private spaces are in high demand. For 1 - 2 students, different disabilities - how do you design in existing buildings? <p>Action Item: Engage with Purdue THINK in March/April to review scenarios</p>	Perkins + Will
010	<p>Purdue For Life Foundation</p> <ol style="list-style-type: none"> How can library support development: Lifetime learning; Want to connect 600,000 living alumni, 45% of alumni live in the state, retirement trend back to university; Special collections/archives; Human Library; Alumni connection; WALC. Foundations: Purdue associated with archives; Fundraising goal will come from master plan; Students are looking for mixed use spaces. 	Perkins + Will
011	<p>Dean's Advisory Council & Finance</p> <ol style="list-style-type: none"> Operations: Meet twice a year; Monthly zoom during the pandemic; Worked with libraries with mental health and what role they play. Usually talk about changing the role of the library; Collaborative study; High end tech and instant tech; Maker sessions, 3D printing. A part of any collaborative space is access to the electronic resources; So, libraries are involved in all collaboration spaces. <p>Action Item: Need to understand student's journey on campus and what resources they can access</p>	Perkins + Will

012	<p>LCSSAC & LAPSAC</p> <ol style="list-style-type: none"> 1. Meet once a month; Discuss issues staff may have, HR questions, questions for the dean, Rich is the chair. 2. Each library has different constrains, resources, etc. Staffing is too low and stretched very thin. 3. Design front desk to have option with students to come up and address accessible needs; Archives don't feel like part of the library. 4. As burned out as people are on zoom, will remain component - hungry for connection. 5. Ensure hybrid will work with technology. <p>Action Item: If we redesign spaces, check in with staff who are in that space</p>	Perkins + Will
013	<p>Wrap Up with Working Committee</p> <ol style="list-style-type: none"> 1. Separate public facing exhibits from curriculum exhibits 2. Remote Working: 10% - 100% remote; 50%-60%-hybrid workers (4:1 or 3:2 days on campus); Rest is 100%. <p>Action Item: PW to draft agenda of precedent tours; Get copy of STEW design work from Drew (HICKS vertical expansion study, STEW connector, STEW renovation, EDI, data science moves); Set up meeting with Allison/Michael to review campus master plan (follow up to previous discussion); Res life/housing master plan - get from Allison</p>	Perkins + Will
014	<p>Campus Planning with Michael Gulich</p> <ol style="list-style-type: none"> 1. Projects related to Stewart: Feb 2020, saw precedent examples with Payette; Building west of new STEM building; Can we renovate Schleman hall for data science, instead of building new? 2. Board authorization to renovate Schleman Hall: 300 staff, need to be relocated; moving 800 staff to make the project a reality. 3. STEW/PMU/HICKS: Both combined as one construction project; one relies on the other; scenarios with temp space; Building STEW space first, PMU, HICKS, Then Schleman. 	Perkins + Will

Please note: *The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.*

High Residential	20%	9,500	(6,617)	@30sf/seat (198,512) sf

Slide 28 of 65

Overview

291 total classrooms = 329,330 NASF across 47 buildings

- NASF range: 340 to 6,944
 - Average = 1,000 - 1,200 sf
 - Most frequent = 400 - 600 sf
- 5,699 student stations
 - Room capacity range = 16 - 480 stations
 - Average = 65 stations
 - Most frequent = 40 stations
- NASF/station: 10 - 30
 - Average NASF/seat = 19
 - Most frequent NASF/seat = 15
 - 192 classrooms have less than 25 sf/seat
- 88 designated as “active learning”
 - 20 - 180 stations @ 15 - 30 NASF/station

Cost & Implementation

Initial Spaces to measure:

- HSSE Level 1
- HSSE Level 2
- HSSE Level 3
- HIKS Level G
- WALC Level 2

Cost Structure:

- 36 Sensors
- \$59/month per sensor
- \$ 8,372 for 3-month deployment
- \$ 12,620 for 5-month deployment

Implementation Timeline:

- Clear with Univ. IT: 2-weeks
- Order lead time: 4-weeks
- Install by: January 10, 2022
- Calibration: 2-weeks
- Begin data collection: late-January

Overview

291 total classrooms = 329,330 NASF across 47 buildings

- NASF range: 340 to 6,944
 - Average = 1,000 - 1,200 sf
 - Most frequent = 400 - 600 sf
- 5,699 student stations
 - Room capacity range = 16 - 480 stations
 - Average = 65 stations
 - Most frequent = 40 stations
- NASF/station: 10 - 30
 - Average NASF/seat = 19
 - Most frequent NASF/seat = 15
 - 192 classrooms have less than 25 sf/seat
- 88 designated as “active learning”
 - 20 - 180 stations @ 15 - 30 NASF/station

Workshop 3: January 14, 2022

Meeting Details

Meeting Date:	1.14.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	1:30 PM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Beth, Rebecca, Drew, Allison, Michael, Dorothy, Scott, Flo, Stephen

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #3</p> <ol style="list-style-type: none"> 1. Groupings of Parking: Knowledge gallery; Virtual learning hub; Center for digital scholarships. 2. Concerns: Struggle on campus with online learning; Most classes are daytime, shift to study spaces when non class time, change policy or behavior. 3. Jessica: On draft vision to team: Is use of 'scholars' too specific? Research is not mentioned; Like the use of "bridge" 4. Analysis on physical and online observations: Does each library need a page; "Study spaces in library: over breakdown by type, what's right mix? Use better photos. 5. Non-library study spaces: Need more seats; is 35sf the right metric? 6. Area Allocation: Add a column to accommodate shelving; HIKS in not a long-term facility; Looking for more space in HSSE. 7. Library Locations: HSSE, hub for current location? What about dual hub? HIKS bubble size in diagram does not include repository. <p>Action Item: PW to send draft vision to team with service drivers for comment and review. PW to review data with Gina's team to ensure spaces are coded correctly. Allison to take the lead. Drew – What's the power of a HUB? Value?</p>	Perkins + Will

Please note: The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.

Slide 3 of 95

Outstanding Data Collection

Drew & Allison

- JLL Workplace Space Needs Study
- Construction Drawings (on hold)
- Copy of Press Release (issue in January)
- Copy of STEW design work

Beth

- Enrollment Assumptions

Slide 4 of 95

Sensor Technology

Initial Spaces to measure:

- HSSE Level 1, 2, 3
- HIKS Level G
- WALC Level B, 1, 2, 3
- MATH Level 3
- KRAN Level 2
- LYNN Level 1
- TERM Level 1

Implementation Timeline:

- Clear with Univ. IT: Complete
- Ship Test Sensors: Jan. 10, 2022
- Install+Callibration: Jan. 24-31, 2022
- Begin data collection: February

Cost Structure:

- 73 Sensors
- \$ 12,585 for 5-month trial
- \$ 11,315 for 7-month extension

Visioning Workshop #2 Summary

Slide 6 of 95

Mission, Vision, Values

Purdue Libraries

Slide 7 of 95

Libraries and School of Information Studies

Mission

We lead in research, teaching, and learning, and create and provide equitable access to diverse resources, outstanding services, and innovative spaces, for Purdue's local, national, and international communities.

Slide 8 of 95

Libraries and School of Information Studies

Vision

Purdue University Libraries and School of Information Services will be a proven leader and impactful partner in the pursuit of transformational teaching and learning, research excellence, and meaningful engagement and outreach.

Slide 9 of 95

Libraries and School of Information Studies

Values

<i>Innovation</i>	<i>Equity</i>
<i>Collaboration</i>	<i>Stewardship</i>
<i>Agility</i>	<i>Service</i>

Project Vision

Slide 29 of 95

PURDUE UNIVERSITY

UNIVERSITY MISSION STATEMENT

Our mission is to help Purdue University students **maximize the value of their life experiences**. As we **develop collaborative relationships** in a safe and respectful environment, the **unique value of dignity of each individual** and group is held paramount.

LIBRARY MISSION STATEMENT

We lead in research, teaching, and learning, and create and provide **equitable access** to diverse resources, outstanding services, and **innovative spaces**, for Purdue's **local, national, and international communities**

Slide 30 of 95

PURDUE UNIVERSITY BRAND

Purdue University is about the **persistent pursuit of innovation** where people bring their best and learn to build a better world together.

Or more simply:

Persistent Innovation.
Together.

Slide 31 of 95

DRAFT PROJECT VISION STATEMENT

The future Purdue Library will be the bridge between individual scholars and the academic community, the campus and the world. It will connect disciplines and integrate resources across the university so students can engage in the richness of the Purdue experience. Bridging disciplinary resources, the library will be a consistently recognized partner for the persistent pursuit of innovation through experimentation, collaboration, and virtual learning. It will be the preferred pathway between knowledge acquisition and its application in the service of society.

Slide 32 of 95

DRAFT PROJECT VISION STATEMENT

SERVICE DRIVERS

1. Welcoming to all
2. THE HUB for knowledge and scholarship sharing
3. THE integrated Center for Digital Scholarship
4. Host virtual and experimental learning
5. Seamlessly part of the “total” Purdue student experience
6. Resource-rich place to connect and collaborate
7. Promote trans-disciplinary research and learning
8. Unified alignment of purpose
9. Be more visible

SPATIAL ATTRIBUTES

1. Visible, intuitive, accessible, inclusive: validate lived experiences
2. Showcase creation, scholarship, institutional legacy, and special collections
3. Make technology and resources seamlessly present
4. Integrate virtual learning seats and experimental teaching lab
5. Integrate brand across physical and digital spaces
6. Blur boundaries between formal learning and social learning
7. Support learning across academic and co-curricular spaces
8. Co-locate staff with serendipitous collaboration spaces
9. Consistent brand expression and physical transparency

Slide 33 of 95

Physical | Virtual Observations

Slide 35 of 95

Areas of Observation

Hicks Undergraduate Library
Humanities, Social Sciences and Education Library
Parrish Library of Management and Economics
Library of Engineering and Science
Veterinary Medical Library
Mathematical Sciences Library
Aviation and Transportation Technology Library
Archives and Special Collections

36

Slide 36 of 95

Brand Observation Summary

Physical Space

- Inconsistent Library name identification across the system.
- Each Library is unique in its design and features.
- Not all Libraries appear welcoming.
- Minimal inclusion of story-telling within the Libraries.
- Missing display space for Special Collections or other features.
- Design feature at desks integrated in many libraries.
- Inconsistent wayfinding and signage.
- Ad hoc postings cause visual clutter.

Digital Space

- Purdue brand leads for Libraries.
- Navigation to individual libraries is sometimes difficult/confusing.
- Landing pages are text heavy.
- Physical Library imagery is small and often of poor quality.
- Inconsistent categories across various libraries.
- Archives & Special Collections has strongest visual "personality".
- "Real-time readership" feature engaging and dynamic.
- Most libraries highlight availability of study & specialty spaces.

Library of Engineering and Science

"The Library of Engineering and Science (LOES) in the Wilmett Active Learning Center (WALC) holds approximately 30,000 print volumes, emphasizes the focus on provision of digital resources, and consolidates the holdings and services of six formerly separate libraries (Chemistry; Earth, Atmospheric and Planetary Sciences; Engineering; Life Sciences; Pharmacy, Nursing, and Health Sciences; and Physics) into one easily accessible location. The materials selected for the physical collection of the Library of Engineering and Science have been evaluated by Libraries faculty with input from departmental faculty. The books, reference collection, and standards have been identified as high-use, high-demand materials that best support the teaching and learning goals of the curricula within the schools and departments. LOES also houses Libraries faculty and staff members, who specialize in access to information resources in engineering and science, as well as in instructing students on how to identify, locate, critique, and retrieve scholarly information. In collaboration with their faculty colleagues in the colleges and schools, the Libraries faculty teach specialized courses and/or participate as team faculty members. Although the focus of LOES is to provide access to information in engineering and science, the use of resources and space is open to all Purdue students and faculty."

55

Slide 55 of 95

Online Observations

Library of Engineering and Science

Active Learning

Purdue University Libraries faculty and staff draw from their own expertise and consulted other leaders in learning design to create [over 400 active learning classrooms](#).

Unique Places

The Wilmett Reading Room features a spectacular view of Purdue University's iconic Spurr Tower. On the first floor, its 300-foot glass and battery provides expertly crafted baked goods and drinks, along with coffee, tea, snacks, and salads.

Library of Engineering and Science

Alongside its focus on providing unparalleled access to digital resources, the Library of Engineering and Science holds approximately 30,000 thoughtfully curated print volumes, consolidating the holdings and services of six formerly separate libraries all into one easily accessible location.

Versatile Spaces

The WALC is a student-centered facility with a variety of resources, study areas, and versatile spaces open to all students on campus. The LOES includes the Data Visualization Experience Lab of Purdue (D-VLAB). In D-VLAB, students can use the visualization wall, "viz" wall, 3-D printers, and/or receive assistance to help them turn their data into knowledge through visualization technologies.

Showcasing History

The walls of the WALC are rich with reproductions of historic photographs of the Purdue University campus. Artifacts and photographs from the working 1924 Power and Heating Plant can be found throughout the building, memorializing the rich legacy of this central site on the Purdue campus. A smartphone tour enhances the exhibits, by providing information and interactive activities designed to make a visitor's experience an extension of the WALC active-learning philosophy.

Aviation and Transportation Technology Library

“The Aviation Technology Library is located in the Purdue University Airport Terminal. The library serves as Purdue’s resource for aviation information and supports the teaching and research activities of the Department of Aviation Technology. The Library contains many aviation repair and maintenance manuals, government documents, and instructional videos and software programs. The collection includes over 4,000 book and journal volumes to support the department’s programs: Aeronautical Engineering Technology, Aviation Management Technology, and Professional Flight Technology. Subject areas covered by these programs include aircraft design, maintenance, manufacturing, air traffic control, airport management, airline operations, and flight training.”

Slide 88 of 95

EXISTING LIBRARY BUILDING CONDITIONS SUMMARY

Slide 89 of 95

Library Existing Building Assessments

These libraries are a 'tenant' in an academic building, thus have less agency over the state of existing conditions and future repairs.

WALC

ALL IN GOOD CONDITION

STEW - \$\$

- STRUCTURE
- ARCHITECTURE
- MECHANICAL
- ELECTRICAL
- LIFE SAFETY

Aging AHU's & ductwork may require full replacement to VAV's.
 Major electrical repairs
 Major sprinkler system upgrades, especially if occupancy changes
 Poor elevator operation
 Significant accessibility challenges

HEAVY: A full renovation of the space could encompass all of these upgrades simultaneously and solve major accessibility challenges.
LIGHT: At the very least, significant disturbance to the existing space would be required due to mechanical ductwork replacement. Accessibility challenges would remain.

HIKS - \$\$\$

- STRUCTURE
- ARCHITECTURE
- MECHANICAL
- ELECTRICAL
- LIFE SAFETY

Major waterproofing repairs required at basement roof
 Full replacement of 40-yr-old AHU's & ductwork
 Significant electrical upgrades requires
 Space use and flexibility is inherently limited

HEAVY: A full renovation of the space would require all of these upgrades. Due to long-term maintenance concerns, demolition and replacement is a viable option.
LIGHT: At the very least, mechanical systems need to be upgraded and leaks mitigated (soil removal and waterproofing replacement)

Workshop 4: February 22, 2022

Meeting Details

Meeting Date:	2.22.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	2:00 PM	Project Number:	021661.000
Meeting Location:	PW Chicago Studio and Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Stephen Lenz, Joe Bocchiaro, Gill, Amanda S, Katy, Robin, Dean, Mark, Rebecca, Beth.

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	Workshop #4 <ol style="list-style-type: none"> 1. Program Priorities: Knowledge gallery; Virtual learning hub; Center for digital scholarship. 2. Team 1: Keep north as workhorse, south as a destination; More than 150 unites in north hub; If students are north, are going to need support and max out capacity. 3. Team 2: Want LGBTQ more central to campus; Want virtual learning hubs in both spaces, split into two; Keep A/SC with knowledge gallery without impacting archives. 4. Team 3: Maker space and digital scholarship could be built in WALC; Want new A/SC room for storage, knowledge gallery, study spaces. 5. Technology: AV is everywhere; Know where tolerance is for change; what is data input/throughput; Lighting for cameras is key; 6 C's. 6. Gaming is growing; Esports, sandbox spaces; pods are good examples of touchdown pods; Metaverse, crave community as humans. 7. Virtual reality research, studio where we can create that environment. 	Perkins + Will

Audiences

Slide 11 of 64

Audience Types – Purdue University

Our Brand is built around five (5) key stakeholder groups that shape the experience we create.

Slide 12 of 64

Audience Types

All Students	Visitors & Visiting Scholars
All Faculty	Prospective Students
Staff	Academic Community
Public Community Members	Researchers
Alumni	Student Families
Donors	EDI BIPOC LGBTQ
Retirees	Creative Thinkers
Global “Citizens” & Students	Needs-Based Users
On-Line Participants	Users of Study Spaces
Event Attendees	All Abilities, Ages, Cultures, Languages

Slide 13 of 64

Current & Future Brand

Slide 14 of 64

Brand Recap

Welcoming service organization.
Equitable access to information & resources.
Teach crucial information skills.
Furthering the field of Information Science through research.
Distributed “hodge-podge” of resources & services.
We have study spaces; WE ARE MORE THAN BOOKS.
Striving to be better understood by all.
Nice. Helpful. Friendly. Welcoming. Willing and Ready to Assist.
Open to new ideas.
Serve the information needs of the Purdue community.

Today

Future

An Information Service Hub for Purdue...so much more than books!
Cohesive. Complementary. Inclusive.
Discover. Create. Grow. Innovate. Let us inspire you.
Advancing leadership and the profession through critical research.
Portfolio of resources, experiences and experimentation for all.
Dynamic multi-space environment with great resources.
Responsive services and staff at the academic forefront.
Expert level instruction and personalized guidance.

Connected within our organization, the university, the community,
and the world.

PURDUE UNIVERSITY BRAND

Purdue University is about the **persistent pursuit of innovation** where people bring their best and learn to build a better world together.

Or more simply:

Persistent Innovation.
Together.

Slide 25 of 64

DRAFT PROJECT VISION STATEMENT

The future Purdue Libraries will be the bridge between individual scholars and the academic community, the campus and the world. It will connect disciplines and integrate resources across the university so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized partner for experimentation, collaboration, and digital learning. It will be a pathway between knowledge acquisition and its application in the service of society.

Slide 26 of 64

DRAFT PROJECT VISION STATEMENT

SERVICE DRIVERS

1. Welcoming to all
2. THE HUB for knowledge and scholarship sharing
3. THE integrated Center for Digital Scholarship
4. Host spaces for virtual and experimental learning
5. Seamlessly part of the “total” Purdue student experience
6. Resource-rich place to connect and collaborate
7. Promote trans-disciplinary research and learning
8. Unified alignment of purpose
9. Be more visible

SPATIAL ATTRIBUTES

1. Visible, intuitive, accessible, inclusive: validate lived experiences
2. Showcase creation, scholarship, institutional legacy, and special collections
3. Make technology and resources seamlessly present
4. Integrate virtual learning seats and experimental teaching lab
5. Integrate brand across physical and digital spaces
6. Blur boundaries between formal learning and social learning
7. Support learning across academic and co-curricular spaces
8. Co-locate staff with serendipitous collaboration spaces
9. Consistent brand expression and physical transparency

Meeting Details

Meeting Date:	3.11.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	9:00 AM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Beth, Rebecca, Eileen, Mark, Flo, Scott, Drew Furry, Allison

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #5</p> <ol style="list-style-type: none"> Precedent Tours: UC – Beth liked lower level, renovating to be flexible; Virgin – Purdue specific art throughout, think of individual’s experience; EY Wavespace–Do we have too many wrong chairs, Classroom intercepts; Garage – Classroom flexible and small, high-tech maker space, nice to have framery visible. Have we PW made a case? The future of HIKS is a critical thing; Big footprint needed. Scenarios: Stay & Renovate: Could be phase 1 scenario, not very visionary; Reduce & Stay: This is a 'Sad' scenario to lose seating overall; Reduce & Grow New: Concern about staff moving to 4th (Dark and undesirable), PW can make it a better space in renovation. HSSE Transformation: Looks great, want to include Michael in future discussions as we get into spatial use Next Steps: Get to Flo’s slides, get to precedent tours; Get feedback on scenarios and evaluation matrix on next call; Get to virtual hub study. <p>Action Item: share HSSE slides so we can review offline; Alison - compare existing SF to proposed SF by FICM code/group, Send example of Purdue Facilities Standards.</p>	Perkins + Will

Please note: The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.

Precedent Tour Recap

Slide 6 of 75

University of Chicago

←
Regenstein Library,
Lower Level

→
Regenstein Library,
First Floor

- First Floor Café Space
- Tech Bar Studio
- Writable Surfaces
- Team Rooms
- One Button Studio
- Ample Power & WiFi
- Pop-Up Exhibits to showcase artifacts
- Self-checkout modifies staffing need

Slide 7 of 75

University of Chicago

- Partnership with arts, humanities and library
- Provide spaces for no tech to high tech engagement
- Brand and signage part of Crerar experience
- Library owned space
- Café at entry
- Variety of spaces and seating choices

Slide 8 of 75

Virgin Hotel

“read-easy”

→
Virgin Hotel
Mural Created by Local Artist

←
Virgin Hotel
Restroom Signage

Frivolity and fun, cater to female business traveler
 Uses technology to support service and experience – everything is high tech
 “don’t nickel and dime customers”
 Think creatively about every inch of space and how it is used and could be used differently
 Consistent message of brand throughout
 Use of art to enhance story

→
Virgin Hotel
Conference Room

Slide 9 of 75

Space divided by behavior
 Hospitality focus (from food, coat rooms to break out spaces)
 Interactive white boards throughout, moveable
 Camera can recognize emotion
 Tech support high
 Furniture with high backs is desired
 Unassigned seating, check in at front desk or on app
 Desks are height adjustable
 Maker space – meant to be messy
 Reservation system for all conference rooms

EY Wavespace

10

Slide 10 of 75

EY Wavespace

← Use of furniture to create stacked viewed

→ Small group room

Slide 11 of 75

11

Brand reinforced through design and sponsorship
Strong beverage and food component
Central hub
Zoom Suite
Phone Rooms

Aspen Dental

Slide 12 of 75

12

Maximize utilization of space with divider walls
 Transformation of open circulation space for events
 Intentionality with adjacencies of spaces
 Where program spaces are located, on student path to give them time back in their day
 Consistent brand and story throughout, "keep things clean to allow for growth"
 Interactive (low and high tech) engagement for student athletes and alumni
 "mental" food and beverage hubs throughout
 Think big, long term

Northwestern University

13

Slide 13 of 75

Northwestern University The Garage

Entrepreneurial space, interdisciplinary
 Not associated with any schools
 Dry erase on tables and walls
 Modular furniture to create a 'zone'
 Students like backs to walls
 Soften up the space
 AR/VR media
 Left brain / right brain conf rooms
 Self-guided space
 Pods with mix of furniture creates safe zone
 Peer to peer is most effective

Slide 14 of 75

Northwestern University Library

Balance need of students and public
Reservable study spaces and quiet space
Renovating portions when possible
Could be better about advertising spaces and programming

→
Computer Stations

←
Renovated Study Space

Program Allocation Exercise

PURDUE UNIVERSITY UNIVERSITY MISSION STATEMENT

Our mission is to help Purdue University students **maximize the value of their life experiences**. As we **develop collaborative relationships** in a safe and respectful environment, the **unique value of dignity of each individual** and group is held paramount.

LIBRARY MISSION STATEMENT

We lead in research, teaching, and learning, and create and provide **equitable access** to diverse resources, outstanding services, and **innovative spaces**, for Purdue's **local, national, and international communities**

Slide 17 of 75

PURDUE UNIVERSITY BRAND

Purdue University is about the **persistent pursuit of innovation** where people bring their best and learn to build a better world together.

Or more simply:
Persistent Innovation.
Together.

Slide 18 of 75

PROJECT VISION STATEMENT

The future Purdue Libraries will be the **bridge between individual scholars and the academic community**, the campus and the world. It will **connect disciplines** and **integrate resources across the university** so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized **partner for experimentation, collaboration, and digital learning**. It will be a **pathway between knowledge acquisition and its application** in the service of society.

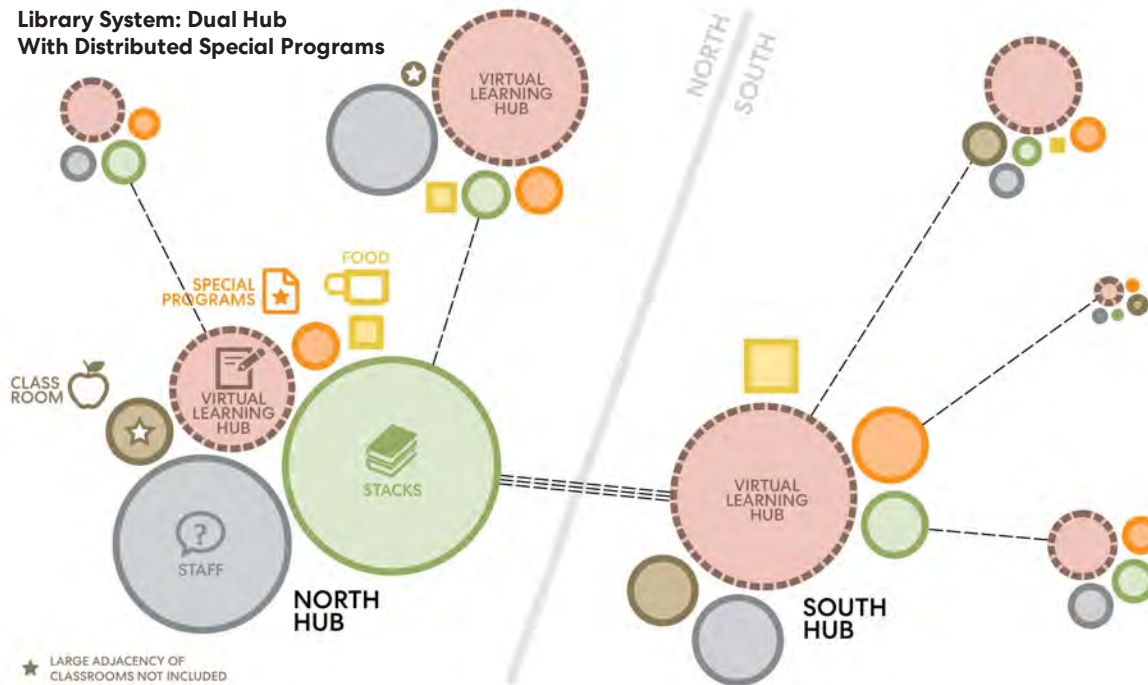

Slide 19 of 75

Scenario Options & Evaluation Criteria

Slide 25 of 75

Stay & Renovate

- + Low initial cost
- + Adds priority programs
- + Modest increase in study seats

- Suboptimal location of A/SC
- Siloed staff
- Impacts WALC & MATH
- Longterm maintenance of HIKS
- Disruptive phasing

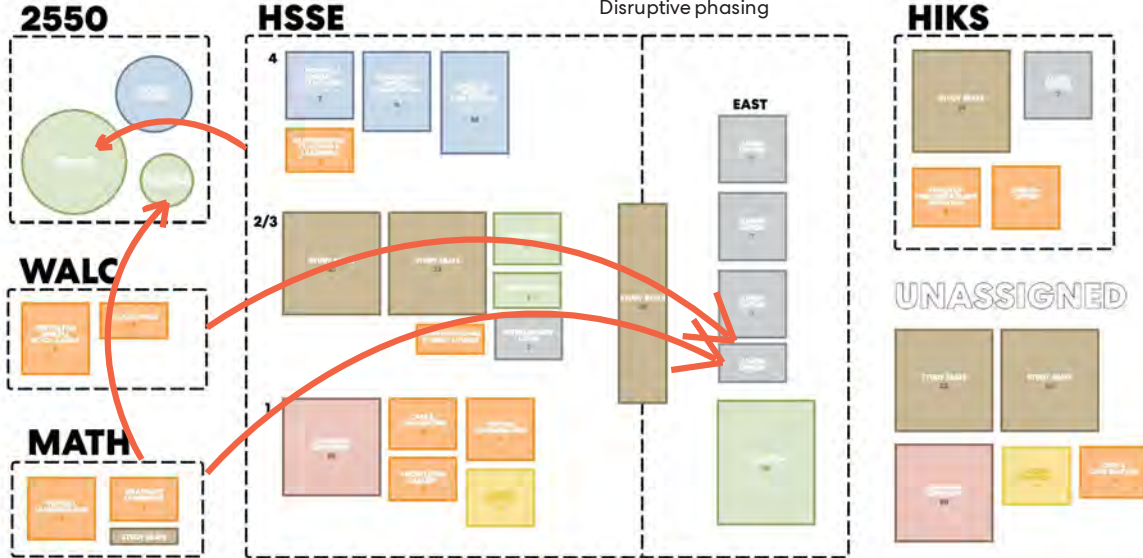

Slide 26 of 75

Stay & Renovate

- + Low initial cost
- + Adds priority programs
- + Modest increase in study seats

- Suboptimal location of A/SC
- Siloed staff
- Impacts WALC & MATH
- Longterm maintenance of HIKS
- Disruptive phasing

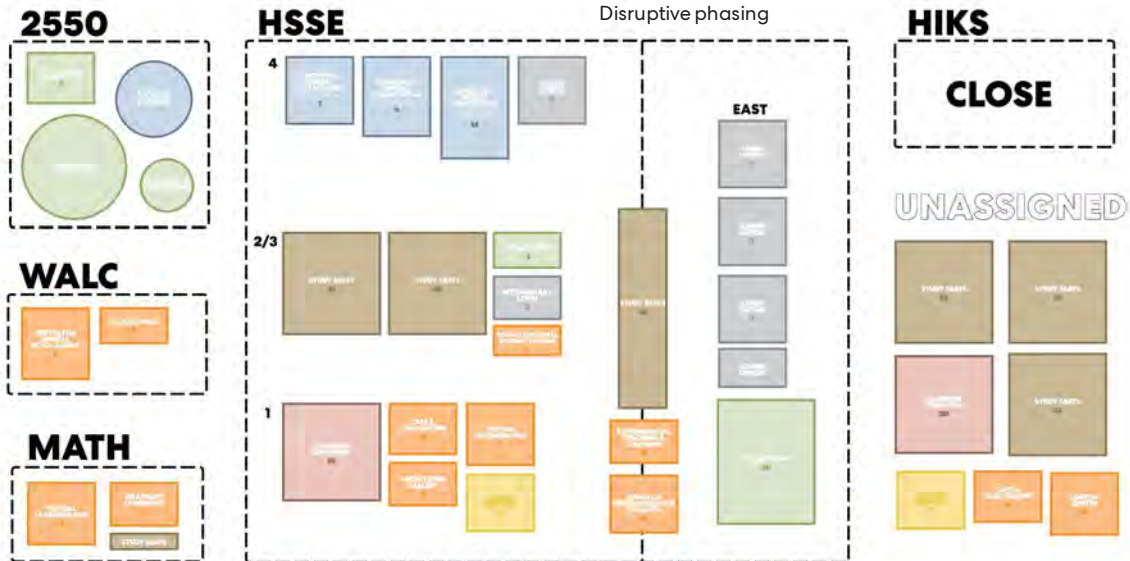

Slide 27 of 75

Reduce & Stay

- + Low initial cost
- + Adds priority programs (reduced)
- + No liability of HIKS facility

- Suboptimal location of A/SC
- Siloed staff
- Loss of study space
- Impacts WALC & MATH
- Disruptive phasing

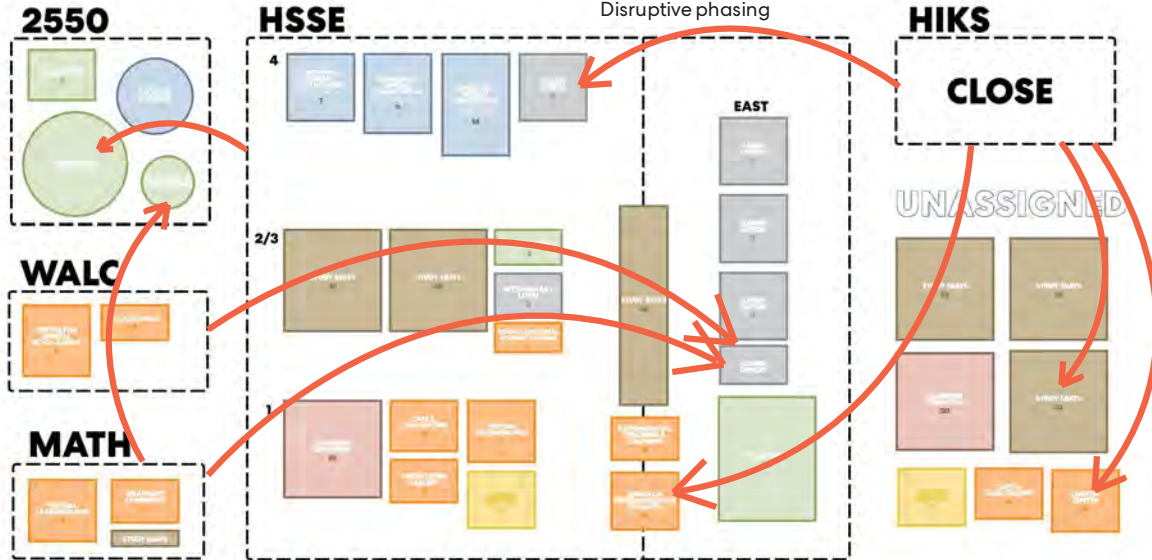

Slide 28 of 75

Reduce & Stay

- + Low initial cost
- + Adds priority programs (reduced)
- + No liability of HIKS facility

- Suboptimal location of A/SC
- Siloed staff
- Loss of study space
- Impacts WALC & MATH
- Disruptive phasing

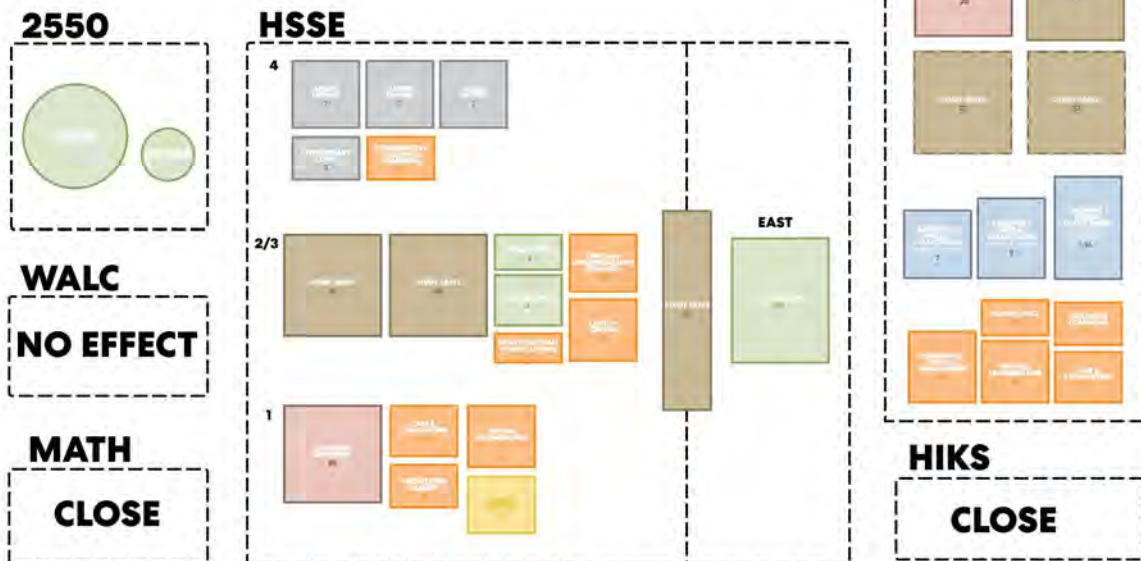

Slide 29 of 75

Reduce & Grow New

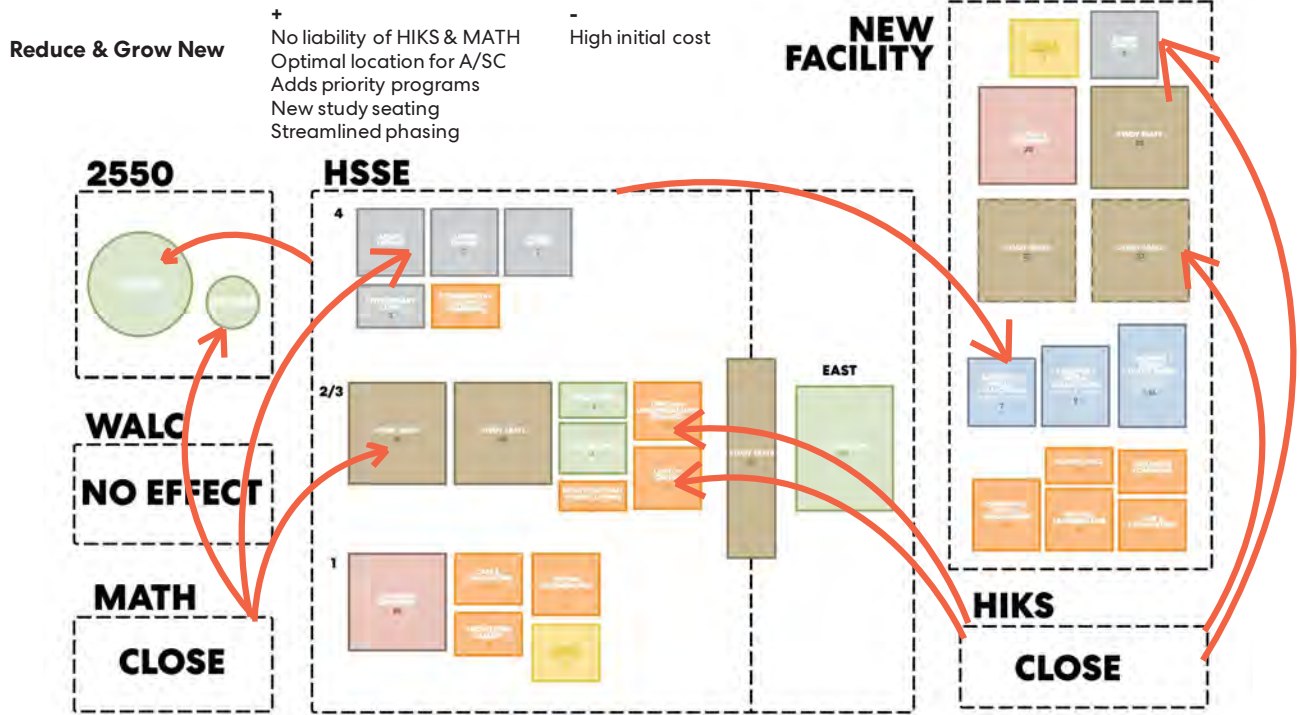

- + No liability of HIKS & MATH
- + Optimal location for A/SC
- + Adds priority programs
- + New study seating
- + Streamlined phasing

- High initial cost

Workshop 6: April 01, 2022

Meeting Details

Meeting Date:	4.1.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	9:00 AM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Flo Mettetal, Stephen Lenz, Mark, Drew, Allison, Beth, Rebecca, Scott, Dorothy, Gulich

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #6</p> <ol style="list-style-type: none"> Beth: Floor 1 – Current support iTAP is new welcome center, Gateway to rethinking east/west corridor. Colocation – Is a low driver, staff located in a way that works. Moving Library Leadership – Like ideas that don't place too many people in 4th, could be more a digital humanities space, student driven if archives are relocated. Stephen: Recorded spaced attributes 7 libraries. Allison: Will need to determine optimum mix for utilization. Michael: Issue designing lower level of union. Had a lot of 4 tops, 1-2 people at them and students are less likely to come up and sit. "Join, I won't be alone". Derek: your 5 or 6 top can break up to smaller groups. 	Perkins + Will

Please note: The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.

PURDUE UNIVERSITY

UNIVERSITY MISSION STATEMENT

Our mission is to help Purdue University students **maximize the value of their life experiences**. As we **develop collaborative relationships** in a safe and respectful environment, the **unique value of dignity of each individual** and group is held paramount.

LIBRARY MISSION STATEMENT

We lead in research, teaching, and learning, and create and provide **equitable access** to diverse resources, outstanding services, and **innovative spaces**, for Purdue's **local, national, and international communities**

Slide 6 of 66

PURDUE UNIVERSITY BRAND

Purdue University is about the **persistent pursuit of innovation** where people bring their best and learn to build a better world together.

Or more simply:

Persistent Innovation.
Together.

Slide 7 of 66

PROJECT VISION STATEMENT

*The future Purdue Libraries will be the **bridge between individual scholars and the academic community**, the campus and the world. It will **connect disciplines** and **integrate resources across the university** so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized **partner for experimentation, collaboration, and digital learning**. It will be a **pathway between knowledge acquisition and its application** in the service of society.*

Audiences

Slide 11 of 66

Audience Types – Purdue University

Our Brand is built around five (5) key stakeholder groups that shape the experience we create.

Slide 12 of 66

Audience Types – Purdue Libraries

All Students	Visitors & Visiting Scholars
All Faculty	Prospective Students
Staff	Academic Community
Public Community Members	Researchers
Alumni	Student Families
Donors	EDI BIPOC LGBTQ
Retirees	Creative Thinkers
Global “Citizens” & Students	Needs-Based Users
On-Line Participants	Users of Study Spaces
Event Attendees	All Abilities, Ages, Cultures, Languages

Slide 14 of 66

Current & Future Brand

Slide 15 of 66

Current Brand

*“We are a **welcoming service organization** that struggles to define itself and strives to be better understood by students, faculty, staff & administration.”*

*“We are **more** than books.”*

Slide 16 of 66

Future Brand

*“Cohesive, complementary and inclusive portfolio of **resources and experiences** that allow for growth, experimentation, and full engagement by all.”*

”Discover, create, innovate. Let us inspire you!”

Slide 17 of 66

Brand Recap – Purdue Libraries

Today

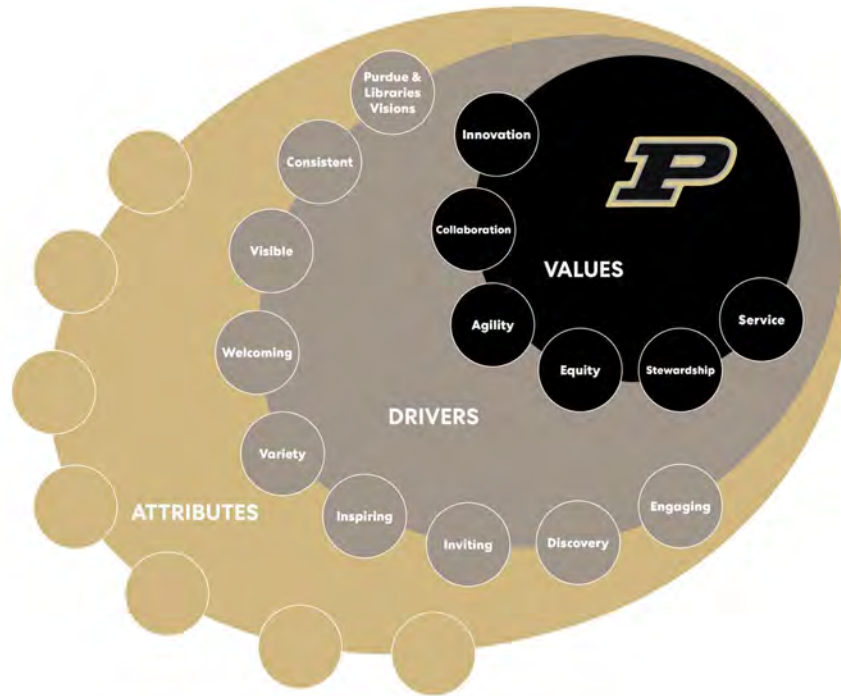

- Welcoming service organization.
- Equitable access to information & resources.
- Teach crucial information skills.
- Furthering the field of Information Science through research.
- Distributed “hodge-podge” of resources & services.
- We have study spaces; WE ARE MORE THAN BOOKS.
- Striving to be better understood by all.
- Nice. Helpful. Friendly. Welcoming. Willing and Ready to Assist.
- Open to new ideas.
- Serve the information needs of the Purdue community.

Future

- An Information Service Hub for Purdue...so much more than books!
- Cohesive. Complementary. Inclusive.
- Discover. Create. Grow. Innovate. Let us inspire you.
- Advancing leadership and the profession through critical research.
- Portfolio of resources, experiences and experimentation for all.
- Dynamic multi-space environment with great resources.
- Responsive services and staff at the academic forefront.
- Expert level instruction and personalized guidance.
- Connected within our organization, the university, the community, and the world.

Site Observations

Purdue University

Slide 34 of 66

Site Observations Overview

Site Observations were conducted to evaluate existing space conditions, human/environment interactions, function and utilization of space, and work/study patterns.

2 days
March 7-8, 2022

7 libraries
HSSE / HICKS / PARRISH / WALC /
MATH / VETM / AVTE

24 Zones
175 micro zones

Site Observations focused on the following characteristics:

power / seating / privacy

setting / atmosphere / support

adjacencies / amenities

35

Slide 35 of 66

Site Observations Summary

Greater utilization in libraries with many features (classrooms, food/beverage).

Students often observed working individually or in pairs of two, even when in a conference room.

Conference rooms do not have consistent technology or reservation protocols.

Vacant classrooms used as study space for one person/group.

Mobile whiteboards used to write and create semi-enclosed boundary.

Space Types and Activities

- Agile spaces equipped with whiteboards and technology/power were well used.
- Individual spaces (carrels) were most sought after, followed by tables with dividers.
- Transient/short-term use of areas outside classrooms
- Inefficient use of large study rooms.

Adaptions and Adjustments

- Mobile whiteboards used to define space.
- Desktop computers were often used in conjunction with student laptops.
- Storage modes are inconsistent across floors.

Light and Views

- Views into other spaces, especially if allowed natural light to filter, were highly desirable/greatest utilization.
- Students tend to sit near access to daylight (light well, clerestory window).
- Lounge chairs turned to face windows – sill used to prop feet up.

Acoustics

- Headphones commonly observed in use for noise mitigation
- Areas around amenities and restrooms were loud and primarily used for socialization
- General understanding of appropriate areas to collaborated vs. focus

36

Slide 36 of 66

Site Observations

Underutilized study rooms

Private study spaces

Key features – power, individual space, daylight

Highly used mobile white boards

Preferred seat types

Makeshift desk partitions

Majority of students used desktop with their laptops

Lounge seating for one ... to lounge

Security entrance

37

Slide 37 of 66

Site Observations

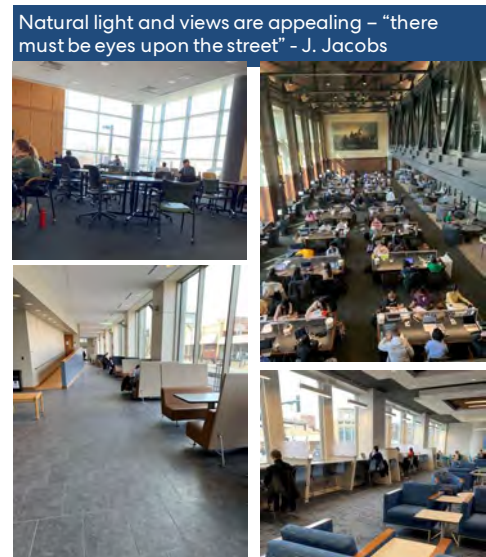

Studying alone but surrounded by others – both in quiet vs active spaces

Enclosure & Privacy are key

There are clear preferred seating options in some cases

Natural light and views are appealing – “there must be eyes upon the street” – J. Jacobs

38

Slide 38 of 66

Data Insights |

When does each library 'feel' at capacity?

Each MicroZone has a predominant seat type.
This is the average* utilization by seat type at peak observed usage:

*disregards ATVE, VETM due to low volumes & locations

Slide 41 of 66

Data Insights |

When does each library 'feel' at capacity?

Example – HSSE 2nd Floor | 178 seats

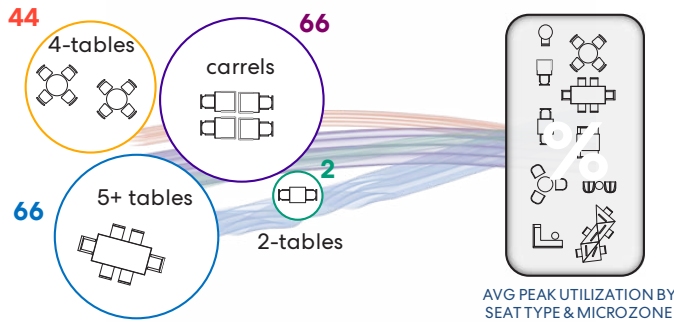

Slide 42 of 66

Data Insights |

When does each library 'feel' at capacity?

Example – HSSE 2nd Floor | 178 seats

Slide 43 of 66

44

Data Insights | Questions to Answer

When does each library 'feel' at capacity?

Example – HSSE 2nd Floor | 178 seats

Slide 44 of 66

45

Data Insights | Questions to Answer

When does each library 'feel' at capacity?

AVTE	First Floor Main	984	34	23	69%	88%	-19%

46

Slide 45 of 66

Next Steps

Questions we want to explore for next meeting:

- Conversation with Occuspace to revise "experienced capacity" based on seat types.
- Explore additional attributes recorded (table shape, proximity to window, food etc..).
- Where do students sit when they have a choice? - exploration of nonpeak hours data.
- Quantify classroom impact on certain libraries - Spring 2021 schedule received last Tuesday.

Deliverable

- Create profiles for the most and least used zones:
- Furniture types
 - Atmosphere
 - Amenities
 - Peak Times
 - Classroom Relationship

ANYTHING MISSING?

Slide 50 of 66

Program Content Summary

SF Comparison

Existing HSSE & HIKS nsf: 161,170 sf

Draft Program nsf: 208,390 sf

Seating

Existing Seat Count: 2,836 seats

Seating Projections:

- 1995 ACRL method suggests need for: **5,214** additional seats
- 2006 A4LE method suggests need for: **4,234** additional seats
- Current Benchmark method suggests need for: **2,390** additional seats

- Draft Program adds **1,937** seats (80% of benchmark method)
 - 40% Active | 60% Quiet
 - Adds 41 group study rooms to existing (4 X increase)

Slide 51 of 66

Program Content Summary

Enhanced Programs

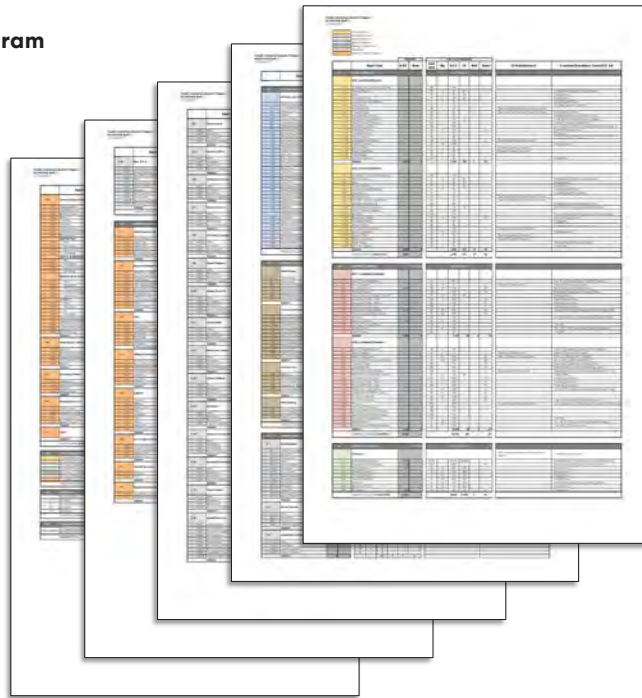

- Study Seats (quantity and variety)
- Quiet (silent?) Reading Room
- Themed Browsing Collections
- A / SC:
 - doubling storage capacity
 - cold storage
 - group room
 - conservation lab
- Maker Space

New Programs

- IT Support Desk
- Drop-In Services
- Express Computing
- Self-Check
- Print Lab
- Digital Signage
- Seminar Rooms (2)
- Active Learning Classroom
- Special Projects Rooms (5)
- Virtual Learning Hubs
- Café
- Non-Traditional Students Lounge
- Experimental Classroom
- Center for Digital Scholarship
- Knowledge Gallery
- Graduate Commons

Workshop 7: April 14, 2022

Meeting Details

Meeting Date:	4.14.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	1:00 PM	Project Number:	021661.000
Meeting Location:	Swaim Conference Room, 4th Floor	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Florent Mettetal, Stephen Lenz, Mark, Drew, Allison, Beth, Rebecca, Scott, Dorothy, Gulich

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #7</p> <ol style="list-style-type: none"> 1. Program Summary: Experiential vs experimental; Experiential everywhere, experimental is in the program. 2. HIKS: medium term plan; If books moved to 2550, would want a specialized space to help with environmental control. Majority of rare books are in HIKS, need to figure out delivery between buildings. 3. SC/A will still be visible for site line; if there is a larger gallery or pocket gallery, security is an issue as well as humidity control; South campus is a growth are for campus, so make it more destination focused. 4. Need think through access to third floor, there is elevator access to all floors. 5. Need to develop attributes for brand. 6. Open Discussion: <ol style="list-style-type: none"> 1. Offsite, if archival goes there, needs to be a clear logistics plan. 2. Digital programs, if in separate buildings, need to have digitization facility. 3. HSSE scenarios have security concerns 4. PW will propose organizational system for website 7. Debrief: PW to send Purdue graphic template of site, note on their recent projects/investments and on separate one, possible future investments. Show past and future momentum; Define site criteria and partner criteria; Bubble these ideas up to provost. <p>Action Item: Send service drivers & spatial attributes around for comment; Determine the draw to get people to come to A/SC;</p>	Perkins + Will

Please note: The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.

Sensor Technology

Spaces measured (24 zones):

- HSSE Level 1, 2, 3
- HIKS Level G
- WALC Level B, 1, 2, 3
- MATH Level 3
- KRAN Level 2
- LYNN Level 1
- TERM Level 1

Feb 06-Present
first full week of collection

>100k+ data points
8:00-23:00 daily by zone & building

Installation & calibration between Jan 24 – 31. Sensors not fully online between Feb 02-05.

Slide 7 of 92

Data Received To Date – average occupants by day

Slide 8 of 92

When does each library 'feel' at capacity ?

9

Slide 9 of 92

Site Observations Overview

Site Observations were conducted to evaluate existing space conditions, human/environment interactions, function and utilization of space, and work/study patterns.

2 days
March 7-8, 2022

7 libraries
HSSE / HICKS / PARRISH / WALC /
MATH / VETM / AVTE

24 Zones
175 micro zones

Site Observations focused on the following characteristics:

power / seating / privacy

setting / atmosphere / support

adjacencies / amenities

10

Slide 10 of 92

Site Observations Summary

Greater utilization in libraries with many features (classrooms, food/beverage).

Students often observed working individually or in pairs of two, even when in a conference room.

Conference rooms do not have consistent technology or reservation protocols.

Vacant classrooms used as study space for one person/group.

Mobile whiteboards used to write and create semi-enclosed "rooms on the go."

Space Types and Activities

- Agile spaces equipped with whiteboards and technology/power were well used.
- Individual spaces (carrels) were most sought after, followed by tables with dividers.
- Transient/short-term use of areas outside classrooms
- Inefficient use of large study rooms.

Adaptions and Adjustments

- Mobile whiteboards used to define space.
- Desktop computers were often used in conjunction with student laptops.
- Storage modes are inconsistent across floors.

Light and Views

- Views into other spaces, especially if allowed natural light to filter, were highly desirable/greatest utilization.
- Students tend to sit near access to daylight (light well, clerestory window).
- Lounge chairs turned to face windows – sill used to prop feet up.

Acoustics

- Headphones commonly observed in use for noise mitigation
- Areas around amenities and restrooms were loud and primarily used for socialization
- General understanding of appropriate areas to collaborated vs. focus

11

Slide 11 of 92

Data Insights

When does each library 'feel' at capacity?

Each MicroZone has a predominant seat type. This is the average* utilization by seat type at peak observed usage:

*disregards ATVE, VETM due to low volumes & locations

12

Slide 12 of 92

Data Insights - Questions to Answer

When does each library 'feel' at capacity?

Example - HSSE 2nd Floor | 178 seats

13

Slide 13 of 92

Utilization by Library- average hourly fill*

Monday-Friday, discarding calibration and spring break (Feb 06 - April 10)

*based on revised experienced capacities

Slide 17 of 92

Workshop # 5 and #6 Recap

Slide 18 of 92

Precedent Tour Takeaways

Slide 19 of 92

University of Chicago

- Partnership with arts, humanities and library
- Provide spaces for no tech to high tech engagement
- Brand and signage part of Crerar experience
- Library owned space
- Café at entry
- Variety of spaces and seating choices

- First Floor Café Space
- Tech Bar Studio
- Writable Surfaces
- Team Rooms
- One Button Studio
- Ample Power & WiFi
- Pop-Up Exhibits to showcase artifacts
- Self-checkout modifies staffing need

Slide 20 of 92

- Space divided by behavior
- Hospitality focus (from food, coat rooms to break out spaces)
- Interactive white boards throughout, moveable
- Camera can recognize emotion
- Tech support high
- Furniture with high backs is desired
- Unassigned seating, check in at front desk or on app
- Desks are height adjustable
- Maker space – meant to be messy
- Reservation system for all conference rooms

EY Wavespace

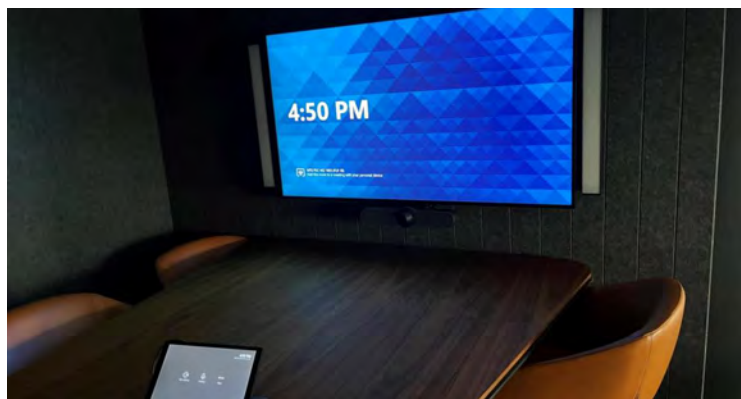

23

Slide 21 of 92

- Brand reinforced through design and sponsorship
- Strong beverage and food component
- Central hub
- Zoom Suite
- Phone Rooms

Aspen Dental

24

Slide 22 of 92

Northwestern University The Garage

Slide 23 of 92

Entrepreneurial space, interdisciplinary
Not associated with any schools
Dry erase on tables and walls
Modular furniture to create a 'zone'
Students like backs to walls
Soften up the space
AR/VR media
Left brain / right brain conf rooms
Self-guided space
Pods with mix of furniture creates safe zone
Peer to peer is most effective

Project Vision

Slide 24 of 92

DRAFT PROJECT VISION STATEMENT

The future Purdue Libraries will be the **bridge** between individual scholars and the academic community, the campus and the world. It will **connect** disciplines and **integrate resources** across the university so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized **partner for experimentation, collaboration, and digital learning**. It will be a **pathway between knowledge acquisition and its application in the service of society**.

Slide 25 of 92

DRAFT PROJECT VISION STATEMENT

SERVICE DRIVERS

1. Welcoming to all
2. THE HUB for knowledge and scholarship sharing
3. THE integrated Center for Digital Scholarship
4. Host spaces for virtual and experimental learning
5. Seamlessly part of the “total” Purdue student experience
6. Resource-rich place to connect and collaborate
7. Promote trans-disciplinary research and learning
8. Unified alignment of purpose
9. Be more visible

SPATIAL ATTRIBUTES

1. Visible, intuitive, accessible, inclusive: validate lived experiences
2. Showcase creation, scholarship, institutional legacy, and special collections
3. Make technology and resources seamlessly present
4. Integrate virtual learning seats and experimental teaching lab
5. Integrate brand across physical and digital spaces
6. Blur boundaries between formal learning and social learning
7. Support learning across academic and co-curricular spaces
8. Co-locate staff with serendipitous collaboration spaces
9. Consistent brand expression and physical transparency

Slide 26 of 92

Programming

Slide 27 of 92

Library Central Services Program

The image shows a stack of five overlapping spreadsheets or data tables, representing the Library Central Services Program. The tables contain various columns and rows of data, with some cells highlighted in different colors (yellow, orange, red, green). The tables are arranged in a perspective view, with the top-most table being the most prominent. The data appears to be organized into sections, possibly representing different categories of services or programs.

Slide 28 of 92

Program Content Summary

SF Comparison

Existing HSSE & HIKS nsf: 161,170 sf

Draft Program nsf: 208,390 sf

Seating

Existing Seat Count: 2,836 seats

Seating Projections: Current Benchmark method suggests need for: **2,414** additional seats

Slide 29 of 92

Slide 30 of 92

Physical Building Conditions Assessment

Slide 31 of 92

Library Existing Building Assessments

These libraries are a 'tenant' in an academic building, thus have less agency over the state of existing conditions and future repairs.

WALC

ALL IN GOOD CONDITION

STEW - \$\$

- STRUCTURE
- ENVELOPE
- INTERIORS
- MECHANICAL
- ELECTRICAL
- LIFE SAFETY

Aging AHU's & ductwork may require full replacement to VAV's.
 Major electrical repairs
 Major sprinkler system upgrades, especially if occupancy changes
 Poor elevator operation
 Significant accessibility challenges

HEAVY: A full renovation of the space could encompass all of these upgrades simultaneously and solve major accessibility challenges.
LIGHT: At the very least, significant disturbance to the existing space would be required due to mechanical ductwork replacement. Accessibility challenges would remain.

HIKS - \$\$\$

- STRUCTURE
- ENVELOPE
- INTERIORS
- MECHANICAL
- ELECTRICAL
- LIFE SAFETY

Major waterproofing repairs required at basement roof
 Full replacement of 40-yr-old AHU's & ductwork
 Significant electrical upgrades requires
 Space use and flexibility is inherently limited

HEAVY: A full renovation of the space would require all of these upgrades. Due to long-term maintenance concerns, demolition and replacement is a viable option.
LIGHT: At the very least, mechanical systems need to be upgraded and leaks mitigated (soil removal and waterproofing replacement)

Slide 63 of 92

Brand Observation Summary

Physical Space

Inconsistent Library name identification across the system.

Each Library is unique in its design and features.

Not all Libraries appear welcoming.

Minimal inclusion of story-telling within the Libraries.

Missing display space for Special Collections or other features.

Design feature at desks integrated in many libraries.

Inconsistent wayfinding and signage.

Ad hoc postings cause visual clutter.

Digital Space

Purdue brand leads for Libraries.

Navigation to individual libraries is sometimes difficult/confusing.

Landing pages are text heavy.

Physical Library imagery is small and often of poor quality.

Inconsistent categories across various libraries.

Archives & Special Collections has strongest visual "personality".

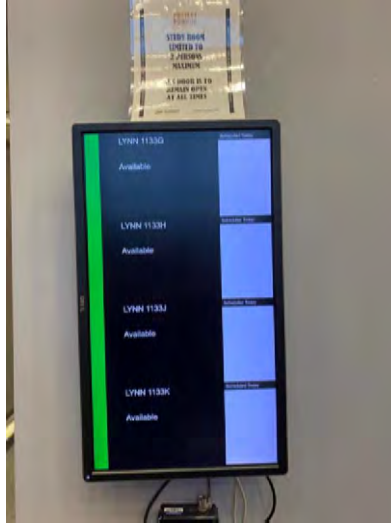

"Real-time readership" feature engaging and dynamic.

Most libraries highlight availability of study & specialty spaces.

HSSE Library

“The Humanities, Social Sciences and Education Library (HSSE), located in Stewart Center, houses a large print collection that supports scholarly research and includes nonfiction, classic literature, children’s literature, government documents and periodicals. The main floor features over 70 workstations, as well as printers, photocopier/scanners, and collaborative or individual study areas. Quiet study areas are also available on the remaining two floors. Research assistance is available at the service desk and by appointment. For more information about the Stewart Mural located outside the library entrance, visit [The Spirit of the Land Grant College webpage](#).”

Library of Engineering and Science

Active Learning

Purdue University Libraries faculty and staff draw from their own expertise and consulted other leaders in learning design to create *state-of-the-art active learning classrooms*.

Unique Places

The Multis Reading Room features a spectacular view of Purdue University's iconic Bell Tower. On the first floor, the *Allen Trust Café and Bakery* provides expertly crafted baked goods and treats, along with coffee, tea, juices, and salads.

Library of Engineering and Science

Alongside its focus on providing unparalleled access to digital resources, the *Library of Engineering and Science* holds approximately 30,000 thoughtfully curated print volumes, consolidating the holdings and services of six formerly separate libraries all into one easily accessible location.

Versatile Spaces

The WALC is a *student-centered facility* with a variety of resources, study areas, and versatile spaces open to all students on campus. The LIES includes the *Only Visualization Experiences Lab of Purdue* (OVELAP) in OVELAP, students can use the visualization lab, "big" room, 3-D printer, and/or receive assistance to help them turn their data into knowledge through visualization technologies.

Showcasing History

The walls of the WALC are rich with reproductions of historic photographs of the Purdue University campus. Artifacts and photographs from the working 1924 Power and Heating Plant can be found throughout the building, memorializing the rich legacy of this central site on the Purdue campus. A smartphone tour enhances the exhibits, by providing information and interactive activities designed to make a visitor's experience an extension of the WALC active-learning philosophy.

Current & Future Brand

Slide 80 of 92

Brand Recap – Purdue Librariess

Today

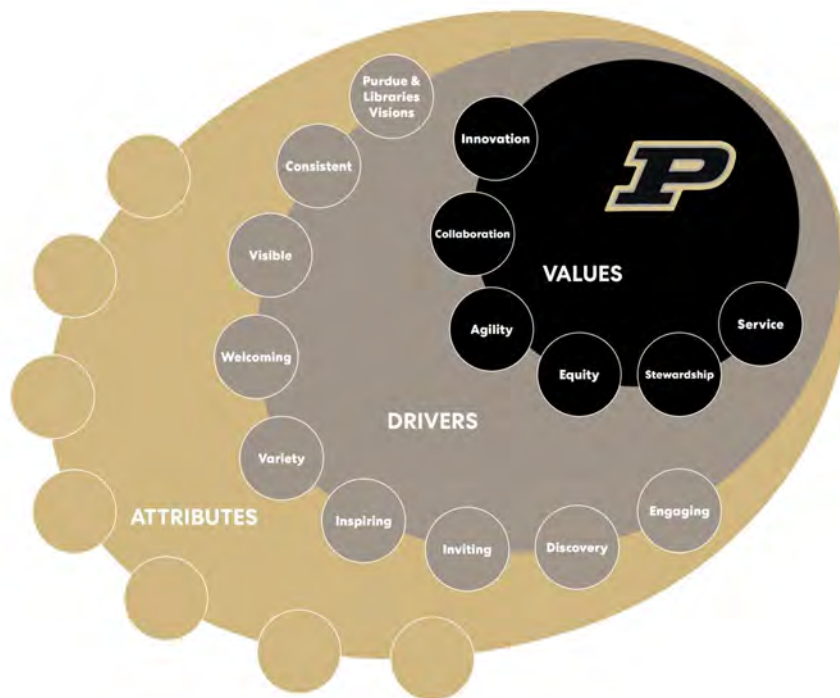

Welcoming service organization.
 Equitable access to information & resources.
 Teach crucial information skills.
 Furthering the field of Information Science through research.
 Distributed “hodge-podge” of resources & services.
 We have study spaces; WE ARE MORE THAN BOOKS.
 Striving to be better understood by all.
 Nice. Helpful. Friendly. Welcoming. Willing and Ready to Assist.
 Open to new ideas.
 Serve the information needs of the Purdue community.

Future

An Information Service Hub for Purdue...so much more than books!
 Cohesive. Complementary. Inclusive.
 Discover. Create. Grow. Innovate. Let us inspire you.
 Advancing leadership and the profession through critical research.
 Portfolio of resources, experiences and experimentation for all.
 Dynamic multi-space environment with great resources.
 Responsive services and staff at the academic forefront.
 Expert level instruction and personalized guidance.
 Connected within our organization, the university, the community,
 and the world.

Workshop 8: May 10, 2022

Meeting Details

Meeting Date:	5.10.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	8:00 AM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Florent Mettetal, Dorothy, Beth, Rebecca, Drew, Allison, Mark, Scott

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #8</p> <ol style="list-style-type: none"> Few students showed interest in south campus for hub location; 'distributed model' is catching all. Beth wants to see beyond top 5 of library usage, follow up; A/SC are important; Can't be compact shelving in HSSE; CDS should stay in HSSE; SF needs to be clear in the document (ASF vs GSF). R-HUB – focus on study seats, not as much as academic support. Need more info from Allison/Drew for south campus investment. <ul style="list-style-type: none"> Nursing/pharmacy - hard to get dollar figure from them. Best to identify locations. Airport is another one, and forestry. WALC – Need compelling argument to validate scope, is this the right move and why invest capital fund into the building. Critical for PW - What is disposition of 4th floor. Do we look at it as classroom/conf space, or keep as is? Occupancy has shown relationship with classrooms to libraries <p>Action Item: PW to share PPT/agenda afterwards and on Teams; Need direction on graduate FTE; Share with Turner; PW to share notes with Shannon on the potential classroom spaces in STEW, also HSSE classroom study/analysis to push classrooms vs. conferences conversation; BE – review renderings; PW, ASG, Jenna and others - talk about intersection of classrooms and library; Study relationship of conferences, classrooms, and these spaces with library; Invite Cherise (speak to the provost office), then report to provosts; BE meeting - Monday afternoon before 2pm - 4pm EST.</p>	Perkins + Will

Please note: The foregoing constitutes our understanding of matters discussed and conclusions reached. Other participants are requested to review these items and advise the originator in writing of any errors or omissions.

Slide 5 of 117

PROJECT VISION STATEMENT

*The future Purdue Libraries will be the **bridge** between individual scholars and the academic community, the campus and the world. It will **connect** disciplines and **integrate resources** across the university so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized **partner for experimentation, collaboration, and digital learning**. It will be a **pathway between knowledge acquisition and its application in the service of society**.*

Slide 6 of 117

Sense of Belonging at Purdue

“Belonging is a construct that has long been a focus for many units on Purdue’s campus—this interest is not new.”

Synopsis of measuring sense of belonging among undergraduate students at Purdue University- West Lafayette (as of October 2021).	
Study	When
Orientations- Student Success Programs First Year Engineering (FYE)- Dr. Kerri Douglas (ENGR) Student Experiences at Research Universities (SERU)- IDA+A	Every entering student is measured before and after orientation [(V)STAR] and after Boiler Gold Rush (BGR). Beginning of every term every FYE students are surveyed on this and other constructs. A census activity; in the even numbered spring terms undergraduates are surveyed and in the odd numbered spring terms graduate students are surveyed.
Organizational Leadership- Dr. Stephen Elliot (PPI) Student Life- Kevin Maurer	Once per academic year, typically in the fall term, all students enrolled in this program of study are surveyed. Approximately six weeks after the start of each term, first year and second year students are measured on this construct.
Steps to Leaps (S2L) – Dr. Louis Tay	Students that attend S2L programming are surveyed on this topic.

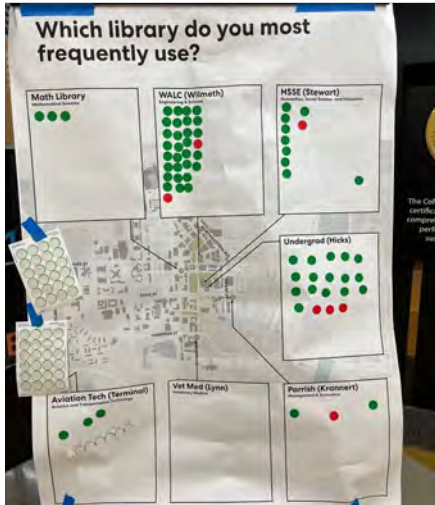

- **Explore** changes in sense of belonging over time;
- **Design** interventions to improve students’ sense of belonging;
- **Identify** if or how a certain intervention relates to self-reported changes in sense of belonging;
- **Describe** how sense of belonging relates to academic success at Purdue University.

Slide 7 of 117

Open comments, questions, and considerations

Campus Planning	University Library Committee	Executive Committee	Core Group
<ul style="list-style-type: none"> • Articulate site criteria for possible HUB locations • Include pro/con statements for site options • Need to give leadership a visual of what the vision could look like • Make a declaration on HIKS • Focus on entire library portfolio • Update zipper diagram with all recent investments on campus – correlation to support student success • How to best position Archives and Special Collections • Diagram how HSSE can be compelling and transformative 	<ul style="list-style-type: none"> • Did this process poll the right students? Not sure within the library • WALC acoustics are not ideal, hard to conduct group work • Libraries need to have the appropriate acoustics, privacy and safety • Role of library for international students • How to keep character of each library, but be unified as a system 	<ul style="list-style-type: none"> • Student space – sense of belonging • Is inclusive co-creation appropriate? • Libraries connect people with people • Sharing the story and allow students to be a part of the story • Value of place and value of campus – strengthen • Could the library be an extension to the virtual learning component, “a partner of experiential learning” • Push the library brand forward with alignment of Purdue brand, tie to artifacts 	<ul style="list-style-type: none"> • How can the Occuspace data be used to inform future changes within the library? • Program: experiential vs experimental • Discussion around 2550 and off-site storage, advantages • Physical and digital exhibit opportunities connected to A/SC and general connections • If HSSE stays, how do we make it transformational? • Elevator access to all floors within HSSE • Amplify dynamic quality of storytelling on web presence

TAKEAWAYS

**CLASSROOM ADJACENCIES HAVE A MEASURABLE
IMPACT ON LIBRARY USES**

**MOST LIBRARIES EXHIBIT REACTIONS TO THEIR
ENVIRONMENT/ECOSYSTEM**
(PEDESTRIAN TRAFFIC, CLASSES, FOOD)

**INCREASED CONNECTION BETWEEN LIBRARIES AND
TEACHING SPACES (VISUAL & PHYSICAL) WILL LIKELY LEAD
TO INCREASED USAGE OF LIBRARY SPACES**

**MOST LIBRARIES CATER TO MANY/ALL STUDENTS –
ONLY VETMED & AVTE ONLY SEE A DEFINED SUBSET OF
THE STUDENTS POPULATION**

25

Slide 25 of 117

Programming Summary

Slide 26 of 117

NV5 Technology Vision – Areas for Further Study

IT/AV Infrastructure, Interconnectivity, AV

- Minimize 'hops' between switches
- Employ pervasive wireless connectivity
- Develop intelligent buildings/IoT strategy
- Continue Occuspace analysis
- Develop room scheduling system and signage

Conference Rooms, Study Rooms

- Scale technology for study modes (alone, along or together)
- Strategically equip rooms with web conferencing capabilities, install future-proof infrastructure
- Allow for analog, non-tech areas such as whiteboards

Learning Commons

- Plan for shared workstations to supplement BYOD (bring your own device)
- Provide acoustically isolated "meeting/class" pods for virtual and hybrid courses
- Create quiet zones

Specialized Spaces

- Makerspaces
- Digital Media Spaces
- Video & Audio Studios
- Virtual/AR/Metaverse Spaces
- Esports/Gaming Areas
- "One Touch" and Lightboard Studios
- Higher fit/finish "Zoom Rooms"

Slide 27 of 117

NV5 Technology Vision – Areas for Further Study

Communications & Branding

- Develop a digital signage strategy for equipment and content creation Allow for interfaces between social media and physical domain, "Tweet Boards" to allow for ownership of space
- Expand Library app to enable wayfinding, discovery, events, etc.

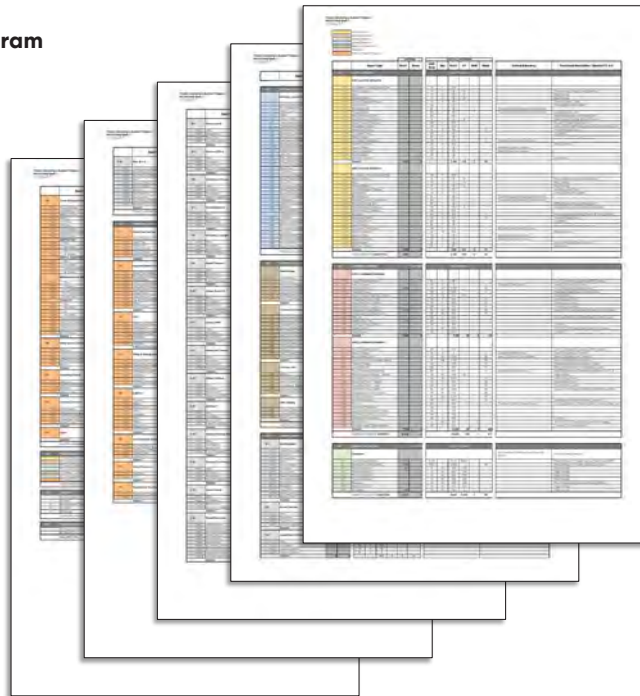

Staff Development

- Provide staff training and consider new hires for support of technology
- Provide 'black box classroom' for faculty to experiment with technology
- Provide tech support areas

Program Content Summary

HSSE

- Increase of harvested 6,000 sf
- Possible loss of 17,300 sf
- 927 new seats
 - Virtual learning hub
 - 15 group study
 - Interview room
 - Presentation room
 - 2 special projects rooms
 - Quiet/silent reading room
- Single service point
- Experimental Classroom
- Center for Digital Scholarship*
- Knowledge Gallery
- Cafe

HIKS

- No change in area
- 58 new seats
- Higher utilization seat type (adds 122 'perceived' seats)

WALC

- No change in area
- No change in study seats
- High visibility makerspace

MATH

- No change in area
- 70 new seats
- More seating variety/choice

KRAN

- No change in area
- No change in study seats

LYNN

- No change in area
- No change in study seats

TERM

- Loss of 2,295sf (close library)
- Loss of 63 seats

S-HUB (South Hub)

- Increase of new 77,000sf
- 1,149 new seats
 - Virtual learning hub
 - 32 group study
 - 2 special project rooms
 - Quiet/silent reading room
- Single service point
- Center for Digital Scholarship*
- Expanded A/SC**
- Knowledge Gallery**
- Cafe

R-HUB (Residential Hub)

- Increase of new 12,500sf - 35,000sf
- 300-900 new seats (based on enrollment scenario)
 - Virtual learning hub
 - Seating variety/choice
 - Quiet/silent reading room
- Single service point

Building Scale: HIKS

Slide 79 of 117

HIKS Rezoned by Seat Type

Conceptual Plan

- **Prioritized high performing seat types**, zoned from active/collaborative to quiet/independent workstyle.
- **Active spaces support agile working**, equipped with whiteboards and mobile furniture or communal tables. Positioned along high traffic corridors and near resources (staff, restrooms, and café).
- **Quiet, individual spaces were most popular** followed by tables with dividers. Positioned in remote portion of floor using architecture to semi-enclose the space while keeping window lines open.
- **Lounge spaces used as transient/short-term use**. Positioned along high traffic spaces and outside of classrooms.
- **Study rooms for group work and virtual learning** supporting 2- and 4-people.

122 Perceived additional seats

Slide 85 of 117

Virtual Learning Hub & Experiential Learning

Experimental learning

- Black box theatre
- Teaching in the round is of interest
- Distributed classrooms are of interest
- Classroom of the future - connected to AR, VR, AI, and other technology
- If unscheduled - could turn into classroom
- Purdue Online has reached out in regards to technology drivers
- Think of it differently so it does not get commandeered as a classroom
 - Merger of experimenting and taking your class there for two weeks
 - Tie to pedagogy and practice teaching
 - Designed for observation/research and assessing

Brand & Experience

Slide 88 of 117

Brand Recap – Purdue Libraries

Today

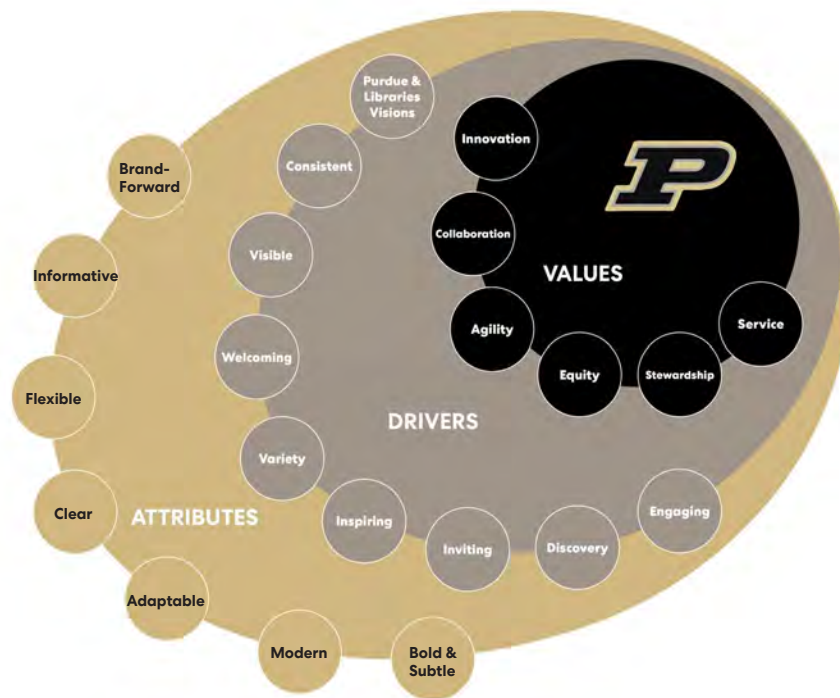

Welcoming service organization.
 Equitable access to information & resources.
 Teach crucial information skills.
 Furthering the field of Information Science through research.
 Distributed “hodge-podge” of resources & services.
 We have study spaces; WE ARE MORE THAN BOOKS.
 Striving to be better understood by all.
 Nice. Helpful. Friendly. Welcoming. Willing and Ready to Assist.
 Open to new ideas.
 Serve the information needs of the Purdue community.

Future

An Information Service Hub for Purdue...so much more than books!
 Cohesive. Complementary. Inclusive.
 Discover. Create. Grow. Innovate. Let us inspire you.
 Advancing leadership and the profession through critical research.
 Portfolio of resources, experiences and experimentation for all.
 Dynamic multi-space environment with great resources.
 Responsive services and staff at the academic forefront.
 Expert level instruction and personalized guidance.
 Still open to new ideas.
 Connected within our organization, the university, the community, and the world.

Top 10+ Brand Strategies

WHAT

1. Develop exterior sign solution to promote Library presence in each building location, while respecting the Purdue brand.
2. Develop consistent interior sign system that clearly announces the individual Library and points of entry.
3. Develop consistent interior sign system that identifies functions, space types, and intended use.
4. Create between-class study zones and virtual class participation spaces in Virtual Learning Hubs.

WHY

1. Make libraries easier to find. Build greater brand awareness for Libraries on campus.
2. Overcome difficult-to-find interior locations. Bring equity of treatment to each library. Build brand consistency.
3. Enhance user experience through clarity of purpose.
4. Communicate purpose; inform “reserve ahead”. Modify behavior and provide alternative class participation.

Slide 94 of 117

Top 10+ Brand Strategies

WHAT

5. Integrate digital tools to support student research and learning at the Center for Digital Scholarship.
6. Develop flexible Knowledge Gallery display platforms to better showcase Archives and Special Collections, and other Purdue stories.
7. Develop flexible Story-Telling methodologies that celebrate Purdue and the Library system; leverage across the network of Libraries.
8. Provide flexible display methods for special feature exhibitions and events.

WHY

5. Promote innovation.
Put learning and innovation on display.
Support Purdue and Library culture.
6. Showcase depth of resources and knowledge.
Build excitement for the Library brand.
Enhance experience through discovery.
7. Create equal experiences for each Library.
Inspire all who use the Libraries.
Celebrate the stories that make Purdue, Purdue.
8. Engage the broader Purdue Community.
Position the Library system as a source of engagement, collaboration and partnership.

Slide 95 of 117

Top 10+ Brand Strategies

WHAT

9. Provide opportunities for student, faculty and administration postings, in an organized manner.
10. Develop a series of Website templates and icons that can be leveraged across various communication methods, digital cataloguing, and information sharing platforms.
11. Create a system of branded distraction graphics for glass-fronted spaces.
12. Create “brand” destinations within the Libraries that support collegiality and collaboration.

WHY

9. Minimize the clutter and visual confusion!
10. Create visual consistency and bring clarity to navigation.
Create visual excitement for the Library brand.
Align the physical experience and the on-line experience.
11. Safety.
Consistency.
Extend the brand experience.
12. Build community.
Support Purdue culture.
Drive preference of place.

Q+A

Slide 115 of 117

Program Content Summary

SF Comparison

Existing HSSE & HIKS nsf: 161,170 sf

Draft Program nsf: 208,390 sf

Seating

Existing Seat Count: 2,836 seats

Seating Projections:

- 1995 ACRL method suggests need for: **5,214** additional seats
- 2006 A4LE method suggests need for: **4,234** additional seats
- Current Benchmark method suggests need for: **2,390** additional seats

- Draft Program adds **1,937** seats (80% of benchmark method)
 - 40% Active | 60% Quiet
 - Adds 41 group study rooms to existing (4 X increase)

Slide 116 of 117

Program Content Summary

Enhanced Programs

- Study Seats (quantity and variety)
- Quiet (silent?) Reading Room
- Themed Browsing Collections
- A / SC:
 - doubling storage capacity
 - cold storage
 - group room
 - conservation lab
- Maker Space

New Programs

- IT Support Desk
- Drop-In Services
- Express Computing
- Self-Check
- Print Lab
- Digital Signage
- Seminar Rooms (2)
- Active Learning Classroom
- Special Projects Rooms (5)
- Virtual Learning Hubs
- Café
- Non-Traditional Students Lounge
- Experimental Classroom
- Center for Digital Scholarship
- Knowledge Gallery
- Graduate Commons

Workshop 9: June 21, 2022

Meeting Details

Meeting Date:	6.21.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	2:00 PM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Florent Mettetal, Rebecca, Drew, Mark, Scott

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #9</p> <ol style="list-style-type: none"> 1. Beth – Can we have a terrace? Check two means of egress; Investigate roof structure; Michael likes the terrace idea. 2. Library Arrival from South – Beth likes archives on first floor; Staircase would drive people up. 3. Michael – How can we think about art and make a statement for HSSE? 4. Experiential Planning: Use icon system as a marker to find library within buildings; “Book display” open shelf box. 5. Allison – People love the mural; Modify canopy to not come out as far: Want welcome open space. 6. Varsity is not ideal. 7. Phasing: <ol style="list-style-type: none"> 1. Get books off floor of HSSE; Remove books so they aren’t an obstacle. 2. A - A/SC get on first floor of HSSE/Varsity/another HUB B - connected to 2A; Moving S/AC off 4th floor, enables restack; Solves HSSE 3. Any others bigger lift and may take longer. Don't want it to stop improvements to HSSE and other libraries <p>Action Item: Get date of board meeting in July - material for that meeting; HSSE restack; Beth - talk with gallery people and give heads up; Beth and Allison – Meet with TERM team on how to move collections and reallocate space.</p>	Perkins + Will

Workshop 10: July 15, 2022

Meeting Details

Meeting Date:	7.15.2022	Project Name:	Purdue University Libraries Master Plan
Meeting Time:	2:30 PM	Project Number:	021661.000
Meeting Location:	Via Teams	Attendees:	Jessica Figenholtz, Derek Jones, Eileen Jones, Florent Mettetal, Drew, Michael, Allison Leavitt, Amanda Gill, Tracy Grimm, Dean Lingley, Beth McNeil, Robin Meher, Mark Puente, Rebecca Richardson, Candance Scott

Discussion

ITEM NO.	DESCRIPTION	RESPONSIBILITY
001	<p>Workshop #10</p> <ol style="list-style-type: none"> Where to grow? Math, South Campus, Res Hub; Could be 2 future library hubs, one in south of state street (academic hub); One near res zone (residential hub). Unlock HSSE: Library functions starting on second floor, where are restrooms and gender neutral? Experiential Planning Update: Notion of icon system, way to bridge was people access information (Physical or virtual); "Golden portal" with repeating icons; Film on exterior of building to pull in awareness of library; Two story identity; Study areas anchored by small intimate setting of books; A/SC - knowledge gallery, graphic information that carries the story; Align experiences on-line and in the physical environment. Implementation: <ul style="list-style-type: none"> Math: Keep 250 LF in library; Build out additional study rooms HIKS: All static shelving to be moved out; Could pick up another 100 seats if there is capacity Phase 4 - new south hub/new residential hub. MG - Directed to assume that Purdue will get to the middle enrollment scenario at 40,000 undergrads. He expects they will be there by fall of 2025 Questions: <ul style="list-style-type: none"> Stack related in HSSE, must include environmental conditions/upgrades. Like idea of moving A/SC to first floor and issue with open spaces on first floor. Near flex areas, security concerns. Correct aviation - NOT coming offline Issues with accessibility - Where are designated spaces for people with physical and visual impairments. Terrace idea - look at WALC area that can be activated <p>Action Item: HSSE Renderings need more color/light/texture (before and after).</p>	Perkins + Will

PROJECT VISION STATEMENT

*The future Purdue Libraries will be the **bridge** between individual scholars and the academic community, the campus and the world. It will **connect** disciplines and **integrate resources** across the university so all can engage in the richness of the Purdue experience. The Libraries will be a consistently recognized **partner for experimentation, collaboration, and digital learning**. It will be a **pathway between knowledge acquisition and its application in the service of society**.*

For every 100 FTE increase, add: 11.4 seats

Slide 24 of 138

TAKEAWAYS

MOST LIBRARIES CATER TO MANY/ALL STUDENTS

VETMED & AVTE SEE A DEFINED SUBSET OF THE STUDENT POPULATION

WALC & IF HSSE EXPERIENCE EXTREME CAPACITY STRESS

THAT MAY TURN STUDENTS AWAY DUE TO LACK OF SEATING

ENHANCE AWARENESS OF LIBRARY NETWORK

TO DRIVE VISITORS TURNED AWAY FROM WALC/HSSIE TO ALTERNATE STUDY OPTIONS

CLASSROOM ADJACENCIES & GEOGRAPHIC PROXIMITY

HAVE A MEASURABLE IMPACT ON LIBRARY USE

INCREASED CONNECTION BETWEEN LIBRARIES AND TEACHING SPACES

WILL LIKELY LEAD TO INCREASED USAGE OF LIBRARY SPACES

SPACE PREFERENCES WITHIN LIBRARIES

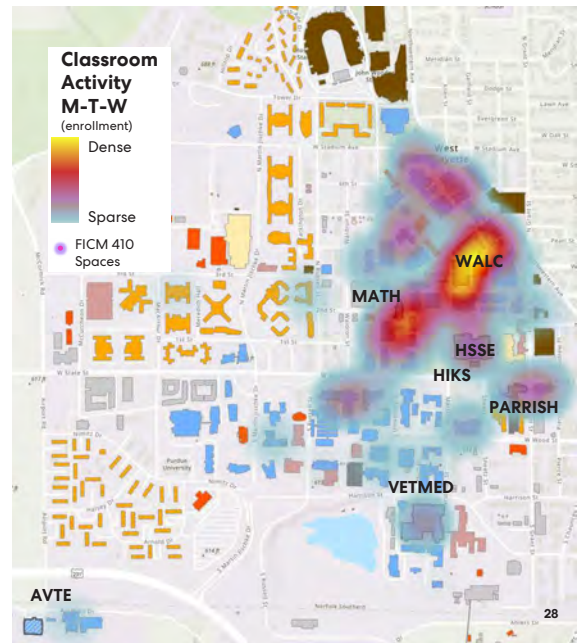

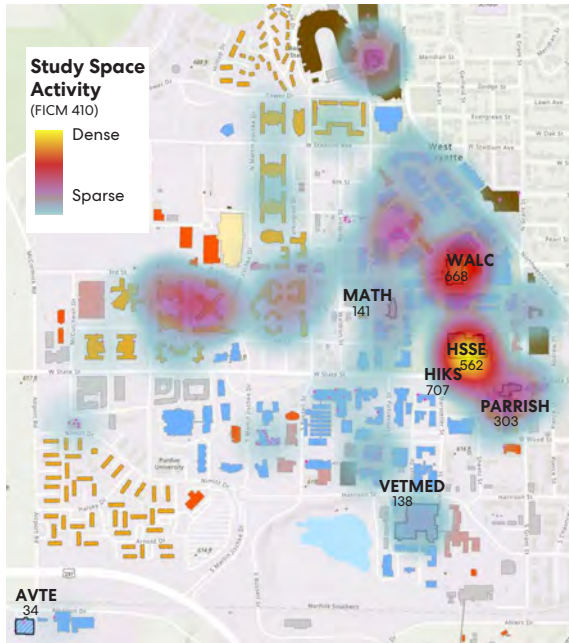

DRIVEN BY PROXIMITY TO HUMAN AND TECHNOLOGICAL RESOURCES

Slide 25 of 138

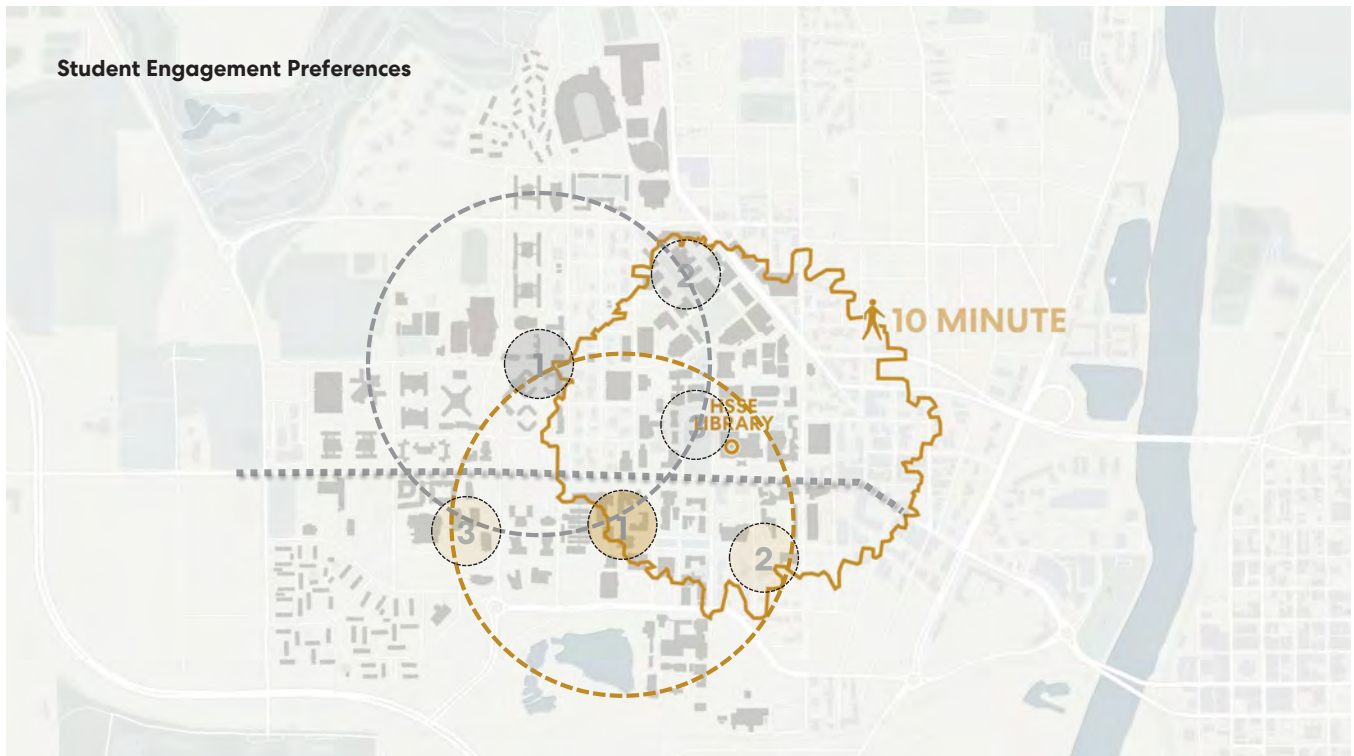

Where to Grow? Future Library Hub Location(s)

Slide 30 of 138

Program Content Summary

HSSE

Increase of harvested 6,000 sf
900+ new seats
Virtual learning hub
 15 group study
 Interview room
 Presentation room
 2 special projects rooms
 Quiet/silent reading room
Single service point
Experimental Classroom
Center for Digital Scholarship
More Visible A/SC
Knowledge Gallery
Cafe

HIKS

Reduced repository to 2250
360+ new seats
 Higher utilization seat type

WALC

No change in area
35+ new seats
Visible Makerspace

MATH

No change in area
115+ new seats
 More seating variety/choice

KRAN

No change in area
 No change in study seats

LYNN

Reduced 9,490 sf (to 2550 or reuse for A/SC storage)
 Reduced 1,500 sf (floor collections)
 No change in study seats

TERM

Reconsider library services with new Terminal Building
 Seat gain/loss to be determined

S-HUB (South Hub)

Increase of new 48,000sf
1,000+ new seats (integrated into partner academic building)
 Virtual learning hub
 32 group study
 2 special project rooms
 Quiet/silent reading room

Single service point
Virtual Learning Hub
Graduate Commons
Cafe

R-HUB (Residential Hub)

Increase of new 28,500sf
600+ new seats (integrated into res hall developments)
Virtual learning hub
 Seating variety/choice
 Quiet/silent reading room

Single service point

2550 (Off-Site Repository)

Taking 42,500sf high-density storage
 Accommodate Repository, HSSE floor collections, MATH floor collections

PRECEDENT TOUR SUMMARY

21C Hotel

As part of Workshop #4 on 2/21/2022 and 2/22/2022, the working group team met in Chicago for the following tours of precedent projects to help frame the new proposed work at Purdue.

Figure 5.1 - Plucky restroom signage

Figure 5.2 - Politically provocative art. Using the typically dead spaces of a hotel as a gallery space. Main gallery invites public events into the hotel.

Aspen Dental

Figure 5.3 - Social stair / double height space as gateway element to office. The space was intended for all staff meetings, but is not conducive acoustically for that. Additionally, it doesn't lead anywhere, but simply ends in a group of lounge seating.

Figure 5.4 - Branding wall -- custom millwork

Figure 5.5 - Call booth room for private conversations. Good size for personal space.

Figure 5.6 - Creative acoustic ceiling solution for conference room.

Figure 5.7 - Simple foodservice, using economical materials yet announcing presence and brand.

Figure 5.8 - Building lobby green wall sculpture.

Figure 5.9 - Simple foodservice, using economical materials yet announcing presence and brand. Note also the hanging discs -- each represent a partner dentist office location and can be updated over time. Creates an interactive art element.

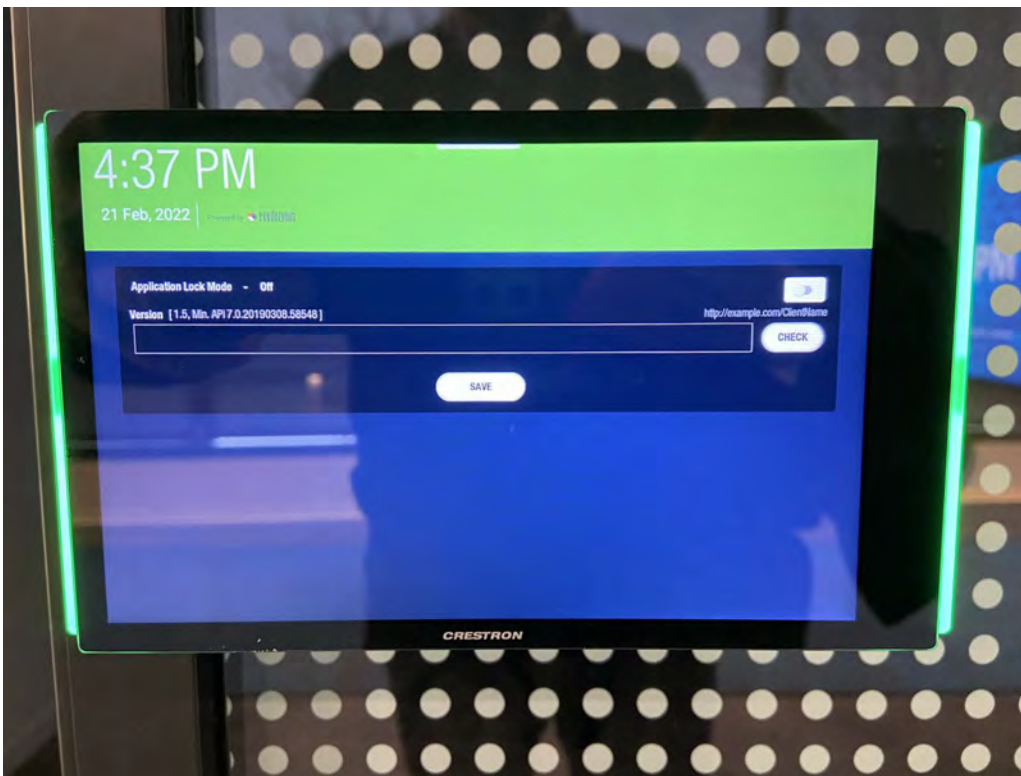

Figure 5.10 - Room reservation platform.

Figure 5.11 - Furniture solution along bench seating rather than built-in elements.

Figure 5.12 - Low-tech interactive branding wall.

EY Wavespace

Figure 5.13 - Hotdesking setup at EY Wavespace's office for internal employees

Figure 5.14 - Smart Board technology

Figure 5.15 - Main orientation gallery at EY's client-centered workshop space. Integrated tech has face-recognition.

Figure 5.16 - Day locker storage for client workshops

Figure 5.17 - Mobile soft seating furniture. Note the large operable wall beyond leading into the orientation gallery.

Figure 5.18 - Smart board collaboration / brainstorming zones for breakouts during client conferences

Figure 5.19 - Curated local art as visual focus.

Figure 5.20 - Harvest table at breakroom transition zone

Figure 5.21 - Furniture is all on rollers for ultimate flexibility. 4-person touchdown setup.

Figure 5.22 - Between orientation gallery and break room

Figure 5.23 - Mobile furniture to help separate spaces.

Figure 5.24 - Private call room

Northwestern - Libraries

Figure 5.25 - Furniture solutions make the space much more usable. Seating with integrated privacy screens/markerboards were preferred by students.

Figure 5.26 - Simple signage / threshold wall

Figure 5.27 - Archives / Special Collections on display

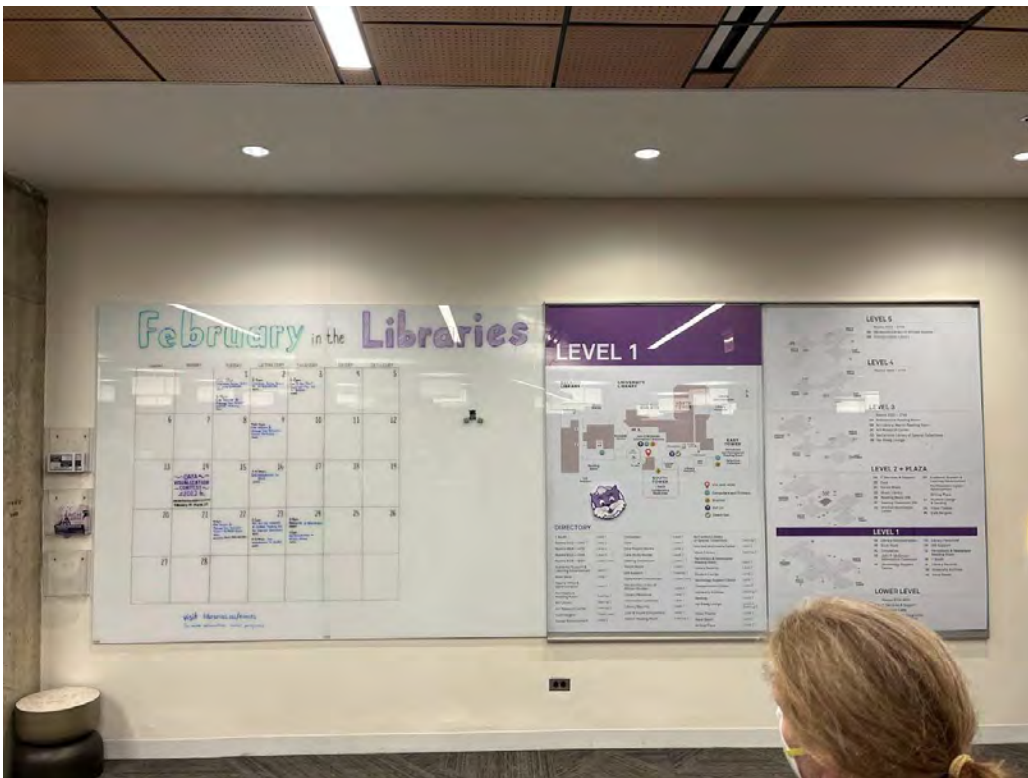

Figure 5.28 - At entry, markerboard calendar as low-tech interactive posting for Library staff. Liked by Purdue staff.

Figure 5.29 - Computing zone was well-utilized.

Figure 5.30 - Historic reading room. Poorly utilized with collections and desk rather than student study space.

Figure 5.31 - Connection between historical collections and modern art.

Northwestern - Ryan Field House

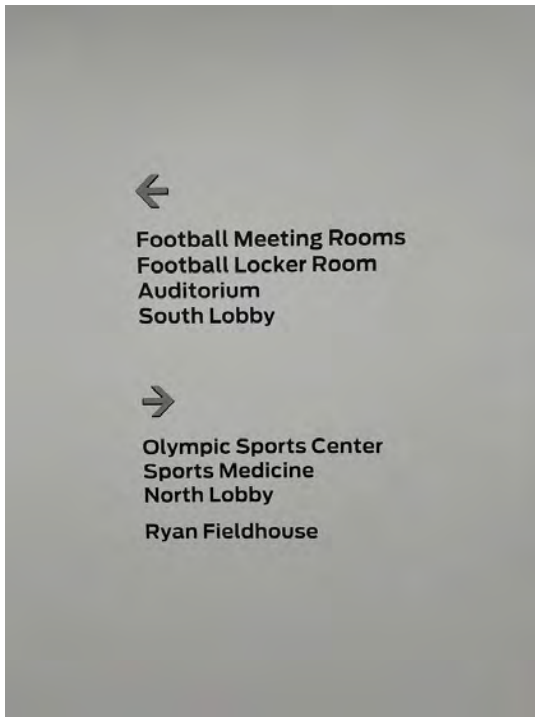

Figure 5.32 - Simple vinyl graphic, wall applied.

Figure 5.33 - 'Wow' moment for Field House lobby. Custom video clips edited for vertical format.

Figure 5.34 - Divisible auditorium to allow full team meetings and split between offense/defense

Figure 5.35 - Full-wall graphic branding.

Figure 5.36 - Full-wall graphic branding, aligning with key program goals and mission.

Figure 5.37 - Branding portraits help add cadence to corridor and highlight different sports.

Figure 5.38 - Open area that can be used for large team meetings and study hall type events. Acoustics could be better. More power is needed to provide space more conducive for studying.

Figure 5.39 - Study hall / tutoring zone

Figure 5.40 - Entry lobby interactive screens. Each are touch-enabled to allow visitors to access content for each NCAA sport.

Figure 5.41 - Entry lobby interactive screens. Each are touch-enabled to allow visitors to access content for the Football program.

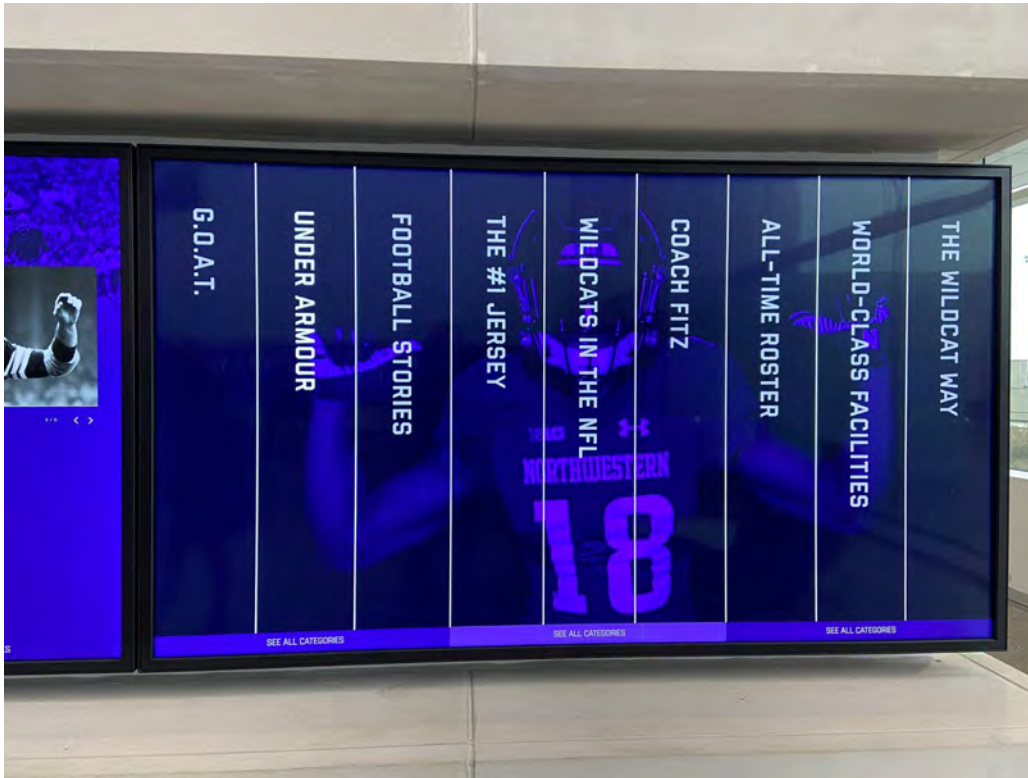

Figure 5.42 - Entry lobby interactive screens. Each are touch-enabled to allow visitors to access content for each NCAA sport.

Figure 5.43 - Uniforms as display.

Figure 5.44 - NFL helmets from each team that has a Northwestern grad.

Northwestern - The Garage

Figure 5.45 - Prototyping shop in the Garage. Ventilation is lacking. Spray booth would be preferred.

Figure 5.46 - Cafe coworking zone. Garage doors open up from seminar space.

Figure 5.47 - Break room / cafe space

Figure 5.48 - Mobile sound-isolating call booth

Figure 5.49 - Greenscreen and video production zone

Figure 5.50 - Coworking for students / staff who are working on entrepreneurial ventures and projects

Figure 5.51 - Entry to the Garage space -- down a utilitarian stair. Good use of branding along a well-trafficked corridor to increase visibility.

Figure 5.52 - Disclosures.

U Chicago - MADD Makerspace

Figure 5.53 - Open atrium of Computer Science hall, prior to entering Makerspace. Shared foodservice zone spills into double height space.

Figure 5.54 - Wayfinding

Figure 5.55 - Entry / student-staffed desk for MADD

Figure 5.56 - 3D printing (clean maker) and flexible video production

Figure 5.57 - Lasercutting (dirty maker), enclosed with glass to control dust

Figure 5.58 - Lasercutting (dirty maker), enclosed with glass to control dust.
Note snorkels on the back wall for exhaust.

Figure 5.59 - Viz lab for large-scale research visualizations. Partnerships with student and faculty research organizations.

Figure 5.60 - Viz lab for large-scale research visualizations. Partnerships with student and faculty research organizations.

Figure 5.61 - Huddle spaces

Figure 5.62 - Open Cafe

U Chicago - Manseuto Library

Figure 5.63 - Main reading room with arched glass ceiling.

Figure 5.64 - View from circulation desk.

Figure 5.65 - Gateway to main reading room.

Figure 5.66 - Conservation lab space within library. Unfortunate use of prime student-focused real estate for back of house library function that would prefer less lighting.

Figure 5.67 - Group study rooms

Figure 5.68 - Underground automatic storage and retrieval system (ASRS)

Figure 5.69 - Integrated power, data, laptop lock and lighting.

U Chicago - Regenstein Library

Figure 5.70 - Lower level collaboration space. Much liked by students.

Figure 5.71 - Main level reading and computing space.

Figure 5.72 - Self-check kiosks

Figure 5.73 - Opposite the Special Collections gallery, certain artifacts are displayed in the wall.

Figure 5.74 - One button studio - creation technology.

Figure 5.75 - Special collections group reading room for class setups.
Virtual / hybrid options as well with book scanner.

Figure 5.77 - IT Techbar for help and repair, just off the main level reading room

Figure 5.79 - Looking into special collections gallery -- good location between main Regenstein reading room and Mansueto Library

Figure 5.78 - Looking into special collections gallery -- good location between main Regenstein reading room and Mansueto Library

Virgin Hotel

Figure 5.79 - Ballroom. Use of curtains at perimeter helps to hide storage and provide acoustic help.

Figure 5.80 - Eclectic room interior.

Figure 5.82 - Choice of seating: 'the library' lounge

Figure 5.83 - Choice of seating: banquette

Figure 5.84 - Branded signage. This is the path to the speakeasy bar.

Figure 5.85 - Funky signage.

Figure 5.86 - Branding and statement piece.

Figure 5.87 - High-top seating adjacent to bar area.

Figure 5.88 - Custom bar with chandelier centerpiece. Virgin Hotels puts guest connections at the center of the experience.

TECHNOLOGY VISION SUMMARY

The Library Masterplan contemplates opportunities to leverage technology to assist Purdue Libraries' future vision to impact students and negotiate a new hybrid learning world. The following presentation sets the groundwork for these conversations by bringing the deep experience of NV5 to the masterplanning effort.

PRESENTATION SLIDES

N|V|5

Envisioning Library Technologies Purdue University

Joseph (Joe) Bocchiaro III, PhD, CStd, CTS-D, CTS-I, ISF-C
Principal Consultant
NV5 Engineering & Technology (formerly The Sextant Group)

Slide 1 of 42

- Outcomes
- IoT: Internet of Things Everywhere
- Tech Design Aspirational Goals
- The “6 ½ C’s” of Library Technology
- Outdoor Spaces
- Experiences, Experiential Learning
- Beyond Physical Security
- Intelligent Building Readiness
- Apps for Buildings
- Technology Infrastructure
- Information Domains
- The Big Picture
- Discussion and Q&A

N|V|5

Slide 2 of 42

Outcomes

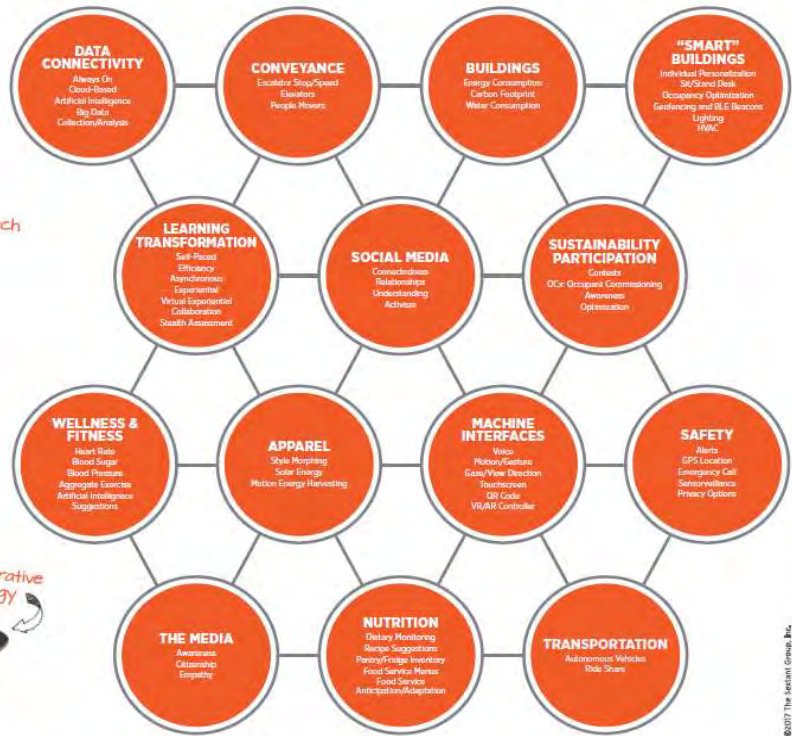

1. Purdue’s Values Realization
 - Innovation
 - Collaboration
 - Agility
 - Equity
 - Stewardship
 - Service
2. Apply technology solutions that respond to the “6 ½ C’s” of library activities
3. Explore new technology types that may be implemented
4. Incorporate emerging Internet of Things (IoT) and Intelligent Building (IBT) technologies that will impact the programming of architecture
5. Foster student experiences and student success!!

N|V|5

Slide 3 of 42

IoT: Internet of Things Everywhere

©2017 The Selenia Group, Inc.

Slide 4 of 42

Ubiquitous Audiovisual

- Leverage AV assets across age groups
 - Presentation Rooms
 - Visualization
 - Performance Spaces
 - Maker Spaces / Specialized Equipment
 - Faculty Sandboxes and Production (Academic)
- Analog Sunset
- Ease-of-use, low maintenance, supportable
- Create library system-wide standards
- Converged AV/IT (AVoIP)
- AVAS: AV as a Service

Slide 5 of 42

Foundational IT

- Minimize “hops”
- Plan for 6G and beyond
- Pervasive wireless connectivity
- Assume omnipresent 8k streaming video
- Intelligent Buildings / IoT strategy
- PoE: Power over Ethernet
- “Heat Map” Modelling

Slide 6 of 42

Trustworthy Security

- Lessons from the pandemic
- Lessons from the protests / riots
- Lessons from active shooter events
- Balance CPTED with confidence, privacy, dignity, inclusion
- Occupancy Control
- Emergency Responders
- Attention to Lighting for Cameras

Slide 7 of 42

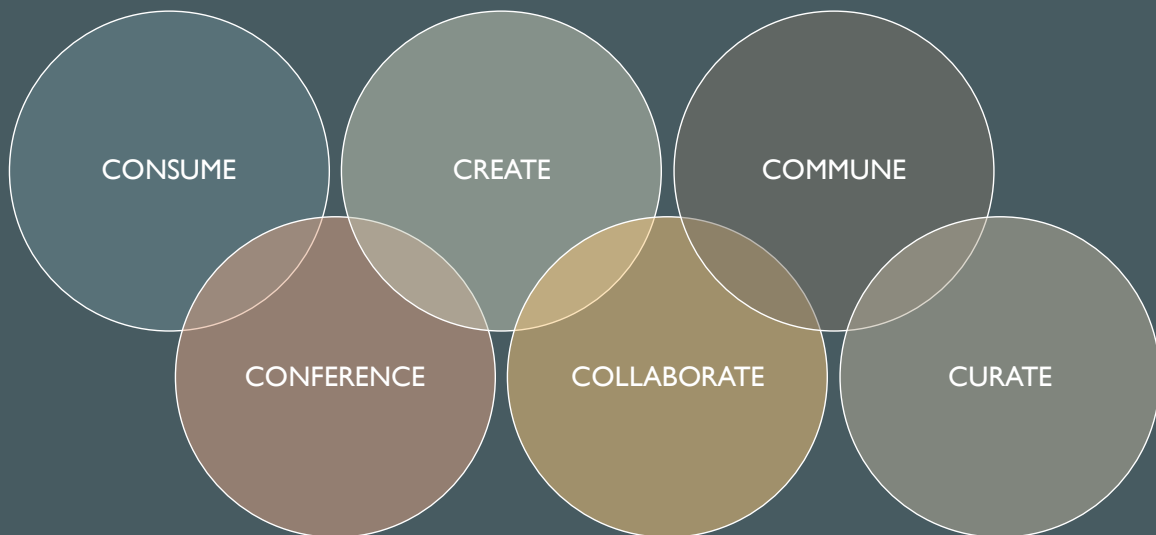

Robust Tech Infrastructure

- Smart Buildings / Smart City: Internet of Things
- Distributed Antenna Systems
- Outside Plant Duct Banks
- IoT and SDG's: Sustainable Development Goals
- Power over Ethernet (PoE) potential
- Visible / celebrated tech

Slide 8 of 42

The “6 “C’s” of Library Tech

Slide 9 of 42

Consume

Slide 10 of 42

Consumption!!

TODAY

- Beyond Shhhh!
- Auditioning and screening spaces: individual (carrels)
 - Audio books
 - Videos
 - Music
- Auditioning and screening spaces: group
- Computer Stations
- Endcap Digital Signage

TOMORROW

- HIGH QUALITY Auditioning and screening spaces
- Virtual Reality Experience Rooms
- App-based collection catalog
- Digital Scholarship

Slide 11 of 42

Conference

Slide 12 of 42

Conferencing!!

TODAY

- Conference Rooms
- Videoconferencing Rooms
- Webconferencing
- Room Scheduling/Signage
- Public Access / Security
- Hybrid Conferences: In-Person, Remote Participants
- Capture and Streaming
- Auditory Assistance Systems

TOMORROW

- UCC: Unified Communications and Collaboration
- Telepresence
 - Walls
 - VR Groups

Big Data Visualization, Digital Media Labs

North Carolina State University – James B. Hunt Library

New Tufts Library, Weymouth, MA

Slide 33 of 42

Experiences, Experiential Learning

- Get Outside! Expedition Rooms
 - Provision Equipment: VR Cameras, GoPros, etc.
 - Special Equipment: Safety / PPE, Clothing, etc.
 - Charging Stations
 - Autonomous Vehicles
- Virtual Reality Rooms
 - Tourism Docents
 - Instructional
 - Games

Slide 34 of 42

Physical Security and Beyond

- Traditional 4 Sub-Systems
 - Access Control
 - Intrusion Control
 - Video / Audio Surveillance
 - Asset Control
- Pandemic Issues
 - Contactless
 - Frictionless
 - Occupancy Control / Management
 - People Counting, Density
 - Temperature, Biometric Measurement
- Credentiailling
 - Multi-Factor Authentication
 - Health Status

Slide 35 of 42

New, More Better Tech

- Wi-Fi “Heat Mapping”
- PoE Lighting, Circadian Rhythm
- Projection Mapping
- Sound Masking
- Interactive Displays
- Edge Blending
- Facial Recognition
- Blockchain Transactions / Ledgers
- Li-Fi: Visible Light Communications
- Shared Studios

Slide 36 of 42

Information Domains

MOBILE

CLOUD

BIG DATA

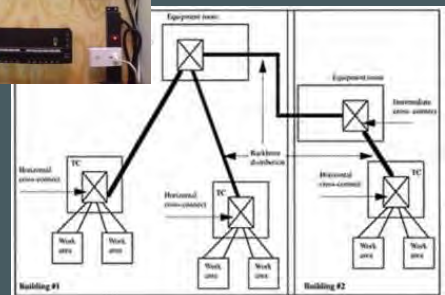

SOCIAL MEDIA

Slide 37 of 42

Intelligent Building Readiness

- Accommodate current converged technologies: AV over IP, SE over IP, BMS/BAS, etc.
- Acknowledge inevitable future technologies
- Centralize technology in data rooms
- PoE: Power over Ethernet
- Distribute active network switches throughout building
- Standards-Based (BICSI, TIA, AVIXA)
- IT Personnel in Facilities Department
- Integration of building, technology and energy systems, including building automation, telecommunications and facilities management systems
- Leverage BIM Metadata

Slide 38 of 42

Apps for Buildings

- NFC: Near Field Communications
- Air Quality, Cleaning Status
- Augmented Reality Wayfinding
- Digital Concierge
- Collection Searching
- Virtual Docents
- Demand side response and control, Energy use reporting
- Collect data points using current and advanced sensor networks
- Be capable of learning about and adapting to user's preferences
- Provide data on occupancy that can also inform space utilization approach
- *Cybersecurity, Personal Privacy*

Slide 39 of 42

Things People are Talking About

- The User Experience (UX): exceptional experiences
- How do we “future-proof” our building?
- Occupant Commissioning (OCx)
- Local vs. Cloud Storage
- Network Capacity
- Adobe Flash →? HTML5
- Smart Buildings
- IA: Artificial Intelligence
- **Future Librarian Skills**
- Automaxpectations
- Is Society undergoing disruption?
